TO OUR PATRONS—*Read Carefully*

HOW TO ORDER. In making out your order be particular to specify just what is wanted. Your name, post office and shipping point should be written plainly to avoid mistakes. If you are in doubt as to whether your stock should go forward by express or freight, you may leave it to us and we will use our best judgment. Very small packages can be forwarded by Parcel Post. Postage is required on orders to be sent by Parcel Post. Strawberries should be sent either by express or mail—not by freight.

TERMS. Cash with order. Your order may be accompanied with your check, a postoffice or express money order, draft or cash. If you send cash we would advise you to send same by registered mail. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash.

RELIABILITY. For forty-five years we have devoted our time to the growing of high grade nursery stock and have striven toward building up a business that would enable us to list ourselves among the foremost nurserymen in the country. As to our reliability we are pleased to refer you to Dun's or Bradstreet's or any bank or business house in Rochester.

SHIPPING SEASONS. The spring shipping season usually commences here about March 15th and continues until about May 1st. Of course the time of shipping your stock depends on your location. We commence making southern shipments about January 1st. The most important of all is to plant stock before the leaves start. Trees and plants should not be dug in the fall until they are dormant. The time they reach this state depends on the weather. Our usual fall season commences about October 1st and we continue to make shipments until the ground freezes. We advise Spring planting for berry plants and peach trees.

PACKING AND SHIPPING. Care is given to the packing of each order which enables us to get your stock to you in fresh condition. We make no charge for packing or boxing and all orders are delivered to the express or freight office free of charge.

Deal Direct with the Grower

We save our customers from 30 to 50% on their trees. Why should you pay agents' commissions or other people's bad debts? Compare our prices with those of any other reliable nursery. We do not sell cheap stock but good stock for less money.

No. 18

State of New York
Department of Farm and Market
Division of Agriculture

Certificate of Inspection of Nursery Stock

This is to Certify that the stock in the nursery of Allen L. Wood of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Section 305 of the Agricultural Law and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose Scale or other dangerously injurious insect, pest or pests.

CHARLES S. WILSON,
Commissioner of Agriculture.

Certificate expires Sept. 1, 1920

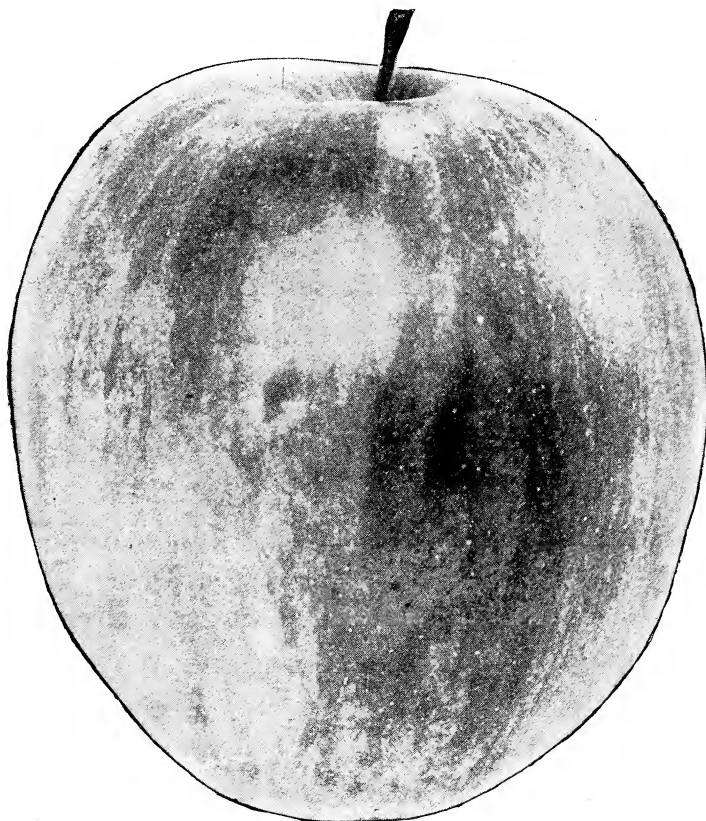

Dated at Albany, N. Y., Sept 1, 1919

WHY WE ASK OUR CUSTOMERS TO ORDER EARLY

The propagation of Nursery Plants and Trees is an art. It takes three or four years to develop Nursery Stock to planting size. The recent war greatly decreased propagation as 90% of the Fruit Seedlings which Nurserymen plant are imported from France and for the past three years France has been able to furnish only very few Seedlings as they cannot get help to grow them. It will be several years before they will again be able to produce the amount of stock they did before the war.

Fruit trees and plants will be higher in price for the next four or five years. Hundreds of the smaller firms have already been forced out of business and there are hundreds of others who will dig their last trees next spring as they cannot obtain Seedlings for a new planting.

Planters should appreciate the present situation and place their order early as the supply of many Standard varieties will certainly be exhausted before long.

OHIO BEAUTY (*Actual Size*)

(*See Back Cover*)

Historical—In the fall of 1914 Mr. John M. Rutledge of Ohio was given two Apples as samples, at a glance he knew he had never seen any like them before. After eating the fruit and finding the flavor so delicious, he inquired from the party who gave them to him where they were grown. He learned that the apples were from a tree on his friend's farm, found in a corner of his garden some years ago. The tree which is hardy and a vigorous grower is believed to have grown from a seedling. It has yielded a good crop for the past eight years.

The Apple is exceptionally large, uniform in size and shape. Skin is very smooth. Color yellow or greenish blush striped with red. The flesh which is slightly tinged with yellow is crisp, tender, aromatic, juicy and subacid which make it an extra fine eating or cooking apple. Season December until April.

We consider the **Ohio Beauty** one of the most handsome winter fruits grown. Its vigor, productiveness and the exceptionally high quality of the fruit, its great beauty and shipping qualities put it in a class by itself.

This wonderful apple was brought to our attention by Mr. Rutledge. We immediately began to propagate this variety by budding a number of trees from scions received from him.

We sell all "**Ohio Beauty**" Apples under a special guarantee seal that is affixed to each tree or bundle of trees. We have the exclusive sale of the "**Ohio Beauty**" Apple.

Price, \$1.00 each. Only a limited quantity to offer.

WOOD'S RELIABLE APPLE TREES

Are true to name because they are budded from bearing trees.

PRICES OF TWO-YEAR-OLD APPLE TREES

(Except Ohio Beauty) See Descriptions

	Each	Ten	Hundred
5 to 7 ft. XXX Grade	85c	\$7.50	\$65.00
4 to 5 ft. XX	75c	6.50	55.00
3 to 4 ft. X	50c	4.00	30.00

5 trees at 10 rate; 50 at 100 rate

EXTRA LARGE SIZE TREES THREE AND FOUR YEARS OLD

\$1.00 each; \$9.00 per ten.

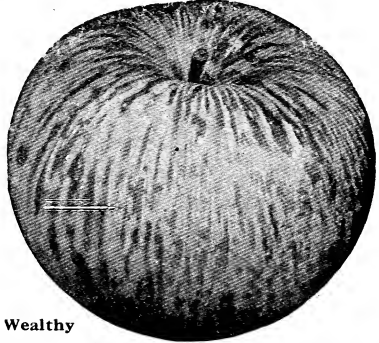

SUMMER VARIETIES

Early Harvest—Medium size; pale yellow.

Red Astrachan—A very handsome summer variety, rather acid in flavor.

Sweet Bough—Fruit is large; pale yellow.

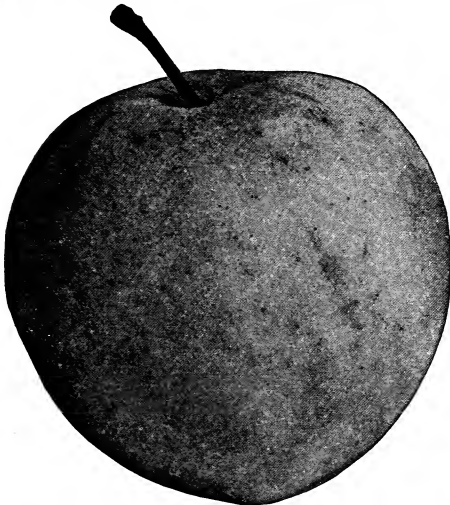

Gravenstein—This is a large, handsome Apple streaked and splashed with red over a strong yellow, crisp, tender and juicy.

Wealthy

Wealthy—Medium, roundish; skin mostly covered with dark red; flesh white. A variety of great value on account of its hardness.

WINTER VARIETIES

Yellow Transparent

Yellow Transparent—Earliest of all Apples. Color when ripe pale yellow; mild, yet of sprightly flavor; good quality and of decided merit. Tree bears abundantly at a very early age. Three year trees frequently produce fine fruit. It should be in every home garden. Season, July.

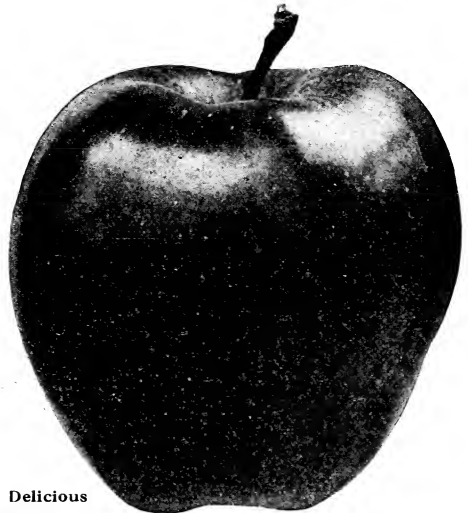

AUTUMN VARIETIES

Alexander—Large and beautiful; deep red or crimson. Very hardy.

Duchess of Oldenburg—Red striped; tender and juicy. The fruit brings a high price on the market.

Maiden Blush—Large, pale yellow with red cheek, beautiful. An erect grower, and a good bearer. Valuable for market.

Fameuse (Snow Apple)—One of the finest dessert fruits. Tender and delicious.

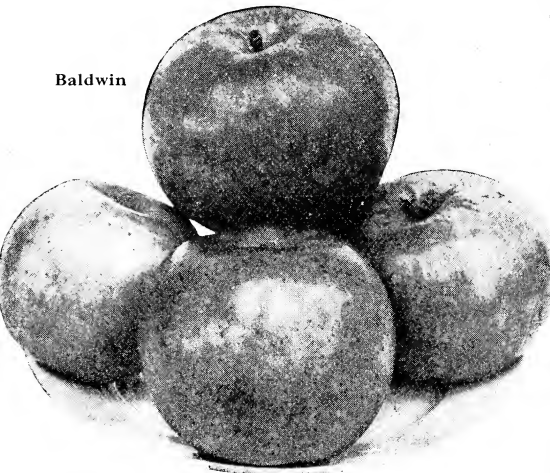

Delicious

Delicious—A remarkable variety rapidly taking first rank both for commercial and home orchards. No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh finely grained, crisp and melting, juicy with a delightful aroma; of very highest quality. A splendid keeper and shipper.

King—A superb red Apple of the largest size and finest quality.

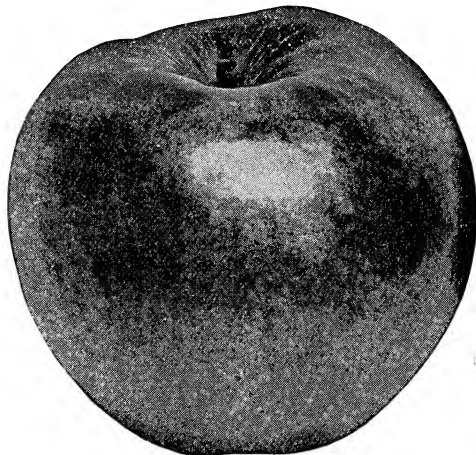

WOODLAWN NURSERIES

Baldwin

Baldwin—The Baldwin is the leading commercial variety in the orchards of New York, Pennsylvania and Ohio. It is the standard fruit in the American markets and is one of the leading Apples used in cold storage for the export trade. It is a large, red winter Apple and is very desirable on account of its size, color and quality. Fruit keeps in common storage until April.

Ben Davis—A very early bearer and one of the best keeping Apples on the market to-day, lasting in cold storage until June.

Hubbardston Nonesuch

Hubbardston Nonesuch—Large, roundish, smooth Apple with a yellow skin mottled and splashed with bright red. The flesh is firm, finely grained, tender, crisp and juicy.

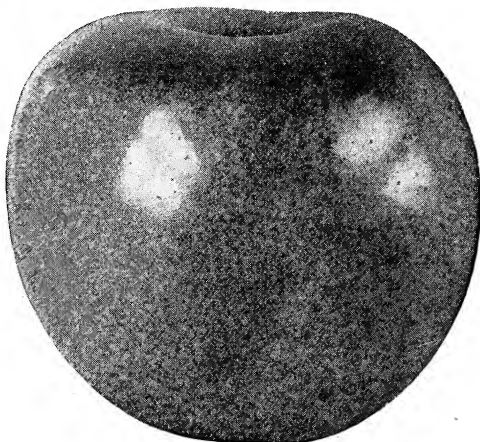

Gilliflower—Very uniform in size and shape. Dark purplish red. Flesh whitish or slightly tinged with yellow. Good for dessert and special markets.

Gano—An improved Ben Davis. An excellent shipper and keeper, and productive bearer.

Grimes Golden—Beautiful, rich, golden yellow Apple with flesh that is tender, juicy, and fine. Early, an annual and good cropper; a vigorous and hardy grower.

Jonathan—Medium size; red and yellow; tender, juicy and rich; very productive. One of the best varieties either for table or market.

Northern Spy—The fruit is large and attractive, being of a bright red color. Flesh is very juicy, crisp and tender. This variety ranks about third in commercial importance with the fruit growers of New York, Pennsylvania and Ohio, being surpassed by Baldwin and Rhode Island Greening.

Woodlawn Golden Pippin

Woodlawn Golden Pippin—Is one of the very best varieties. The Apple is golden yellow, with a delicious flavor. The flesh is firm, crisp and juicy. It is the best Apple for baking that can be grown. The tree bears at an early age—one of the best keepers, and one of the last Apples on the market in the spring. It should be in every garden.

McIntosh Red—A very attractive Apple of a deep red color and of good uniform size. The flesh is white, firm, crisp and tender.

Northwestern Greening—Fruit medium to very large, with a smooth somewhat waxy, clear, pale yellow or greenish skin.

Pewaukee—Medium sized, round, bright yellow Apple striped with red. It is juicy and sub-acid. Tree is a strong grower, hardy, valuable north and south.

Sutton Beauty—A large, roundish Apple with a waxy yellow skin striped with crimson. Flesh is tender, juicy, crisp and sub-acid. Tree is a vigorous grower and very productive.

Rhode Island Greening—Is of the highest quality and ranks next in popularity to the Baldwin.

Rome Beauty—A large, smooth, uniform sized Apple beautifully shaded and striped with red. It is an annual bearer and coming into great prominence in all parts of the country. Its fine quality and handsome appearance make Rome Beauty bring the highest prices on all markets.

Spitzenburg—An Apple of superior excellence. Medium sized, completely covered with red. Flesh is tender, juicy, mild, sub-acid.

Stark—Large, striped yellow and red, juicy, mild, sub-acid. An early and abundant bearer.

Tolman Sweet—Splendid sweet winter Apple. Yellow in color with a faint blush cheek.

Winesap—Medium size; deep red; good quality. Abundant bearer and valuable commercial sort.

Winter Banana

Winter Banana—Fruit large, clear pale yellow with beautiful contrasting pinkish-red blush. Flesh is yellowish-white, tender, mild and sub-acid; flavored like a banana. Excels as a dessert Apple.

Wagner—A superior Apple. The color is a beautiful bright red with some contrasting pale yellow. It has a fine texture, high flavor, and excellent quality. Is especially esteemed for dessert. It is planted a great deal as a filler for orchards.

Wolf River—One of the largest of all Apples—it resembles the Alexander but is better and more popular among fruit men as it is very hardy and can be grown both north and south. Striped and blushed with bright red, it is a very handsome fruit.

York Imperial—It is one of the leading Apples in Pennsylvania and the middle Atlantic States and over a belt of country extending west into Missouri and Kansas.

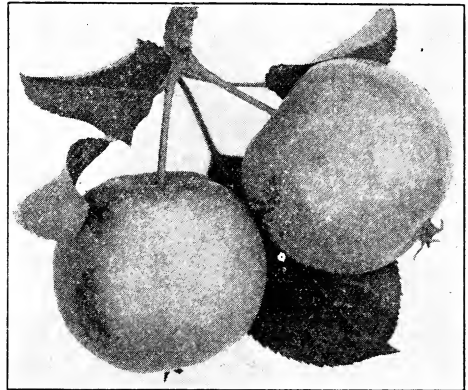

Crab Apple Trees

PRICE OF CRAB APPLE TREES

	Each	Ten
5 to 7 ft. XXX Grade	85c	\$7.50
4 to 5 ft. XX	75c	6.50

EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD
\$1.00 each; \$9.00 per ten.

Hyslop

Hyslop—Large, dark red, flesh yellow, sub-acid. Very productive and hardy. Excels for making fine jellies and preserves.

Transcendent—Yellow with red crimson cheek.

Whitney—Red; very hardy; a great bearer. Striped and blushed with bright red. It is a very handsome fruit.

Dwarf Apple Trees

Dwarf Apples—Are very desirable for small gardens and can be planted six to eight feet apart. It is a great thing to be able to grow your apples on a small City lot. Dwarf Apples under good cultivation will commence to bear fruit the second year after being planted, and you can pick all your Apples from a step-ladder. But we do not recommend them for commercial orchards.

Price of Dwarf Apples 3-4 ft. 85c each; \$7.50 per ten.

Best varieties of Dwarf Apples.

EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD
 \$1.00 each; \$9.00 per ten

Beurre Bosc. A large and beautiful russet pear; very distinct, with a long neck; melting or nearly so, high flavored and delicious. Season is October and November.

Clapp's Favorite—This is without doubt the most productive pear in cultivation. It is of very large size; pale lemon yellow color with a bright crimson cheek. The flesh is finely grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. The fruit should be picked at least ten days before it would ripen on the trees. Pears ready to pick in August and September.

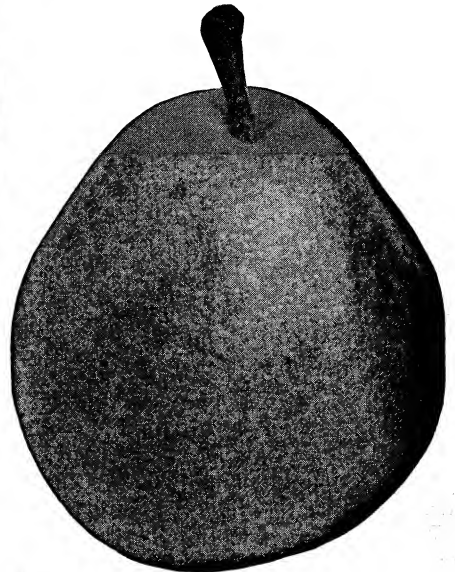

Duchess (Angouleme)—A young bearing tree, often fruiting the first season after planting. The fruit is large, frequently weighing a pound. It is of a dull greenish-yellow, spotted russet color. The flesh is white, rich and of very good quality. Season is October and November.

Kieffer—A popular Pear with fruit growers. Large, rich yellow, tinged with red, somewhat russet; very handsome. Flesh is white, buttery and juicy. Very valuable for canning purposes. Kieffer bears fruit when other kinds fail. Tree is a vigorous grower, early and regular bearer. Season is September to November.

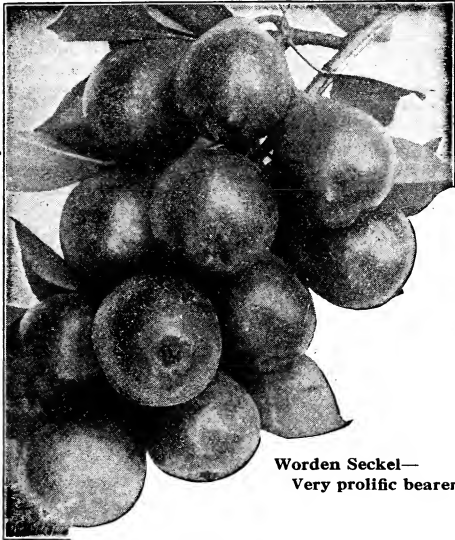

Bartlett

Bartlett—The best and most popular of all Pears for market and home use. It is a rich golden yellow color when ripe, often with a soft blush on sunny side. It is very large, thin skinned; flesh buttery and melting, and has a rich musky flavor. The tree is a strong grower and bears young and abundantly. It requires careful cultivation to get the best results. Fruit should be thinned when small and should be picked just before it is ripe. Then it should be wrapped in paper, packed in tight boxes and placed in a cool cellar until ready for use. Season August and September.

Sheldon

Sheldon—This is of very large size. It is roundish in shape and has a greenish-yellow color covered with light russet. It is very juicy, melting, and has a tasty flavor. The tree is a fine grower and a good bearer. Season is October and November.

Worden Seckel—
Very prolific bearer

Anjou

Worden Seckel—This great Pear is a seedling of Seckel, but far surpasses it in size, color, form and beauty. Fruit is light golden in color with a deep red blush on sunny side. Tree is vigorous, very hardy and bears very young. It is an enormous producer. Ripens in October just after Seckel.

Seckel—Our most highly flavored Pear, the standard of excellence. Fruit small, yellowish brown, with a russet-red cheek.

Flemish Beauty—This is a pale yellow Pear almost covered with light russet, which becomes reddish-brown when ripe. The fruit is large, melting, sweet and rich. It is a great bearer. Fruit ripens during September and October.

Dwarf Pear Trees

	Each	Ten	Hundred
3 to 4 ft., XXX Grade	85c	\$7.50	\$65.00
2 to 3 ft., XX	75c	6.50	55.00
5 trees at 10 rate; 50 at 100 rate			

Bartlett—Dwarf Pears are similar to the standard fruit of the same variety, and are very profitable.

Beurre d'Anjou—A great money-making dwarf that should be extensively planted.

Clapp's Favorite—This is a very good dwarf variety which is used extensively for fillers in orchards, mainly Apple orchards.

Duchess—The most popular of all dwarfs and the one most widely grown. Duchess is a great yielder and a great money getter. The tree is hardy and thrifty and bears uniformly big crops.

Flemish Beauty.—Large, beautiful, melting, sweet. Very hardy and fruitful.

Seckel—Similar to the standard fruit of the same variety.

Beurre d'Anjou—This is one of the most popular and valuable Pears one can buy. A large, handsome fruit, with a fine vinous flavor; buttery and melting. It is a fine keeper and will stay good until mid-winter.

Quince Trees

	Each	Ten	Hundred
3 to 4 ft., XXX Grade	85c	\$7.50	\$65.00

5 trees at 10 rate

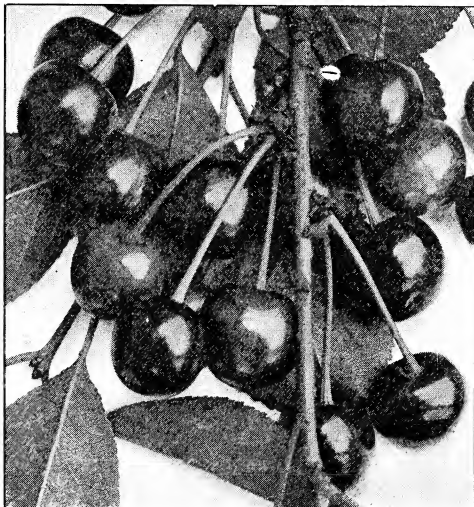

**EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD**
\$1.25 each; \$12.00 per ten

SOUR VARIETIES

Early Richmond—Is a wonderful bearer and cannot be surpassed for hardness. The fruit is of medium size, roundish, dark red. Flesh is tender, juicy and sub-acid. The tree is vigorous and long lived. Excellent for canning and drying.

English Morello—Best late sour Cherry. Medium sized, very dark red color, sometimes nearly black. The flesh is of good quality and it being acid in flavor makes it valuable for canning and preserving. Tree is a small grower with light limbs and trunk. Fruit ripens about two weeks later than Montmorency.

Dyehouse—A very early and sure bearer; ripens a week before Early Richmond. The fruit hangs on longer than any other variety.

Montmorency

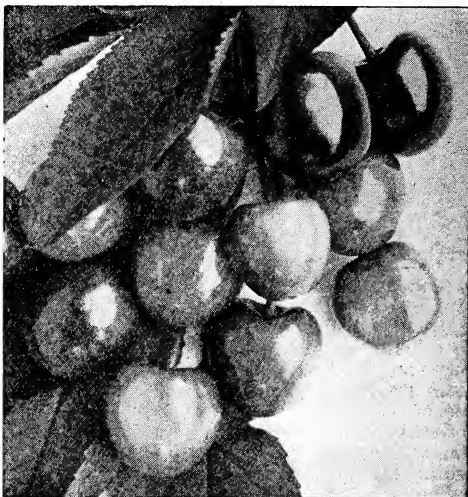

Montmorency—A beautiful, large, red, sour Cherry. The fruit is clear, bright red and of good size. Flesh is of fine quality, subacid. The trees are clean growers and prolific bearers. No matter how unfavorable the season may be, Montmorency can be depended upon for a full crop. It is a good shipper, very attractive looking and always brings good prices. The canning factories use large quantities of them and the demand is greater than the supply. Fruit ripens ten days later than Early Richmond.

SWEET VARIETIES

Bing—Is a large, fine, black sweet Cherry. The flesh is juicy but firm, and a splendid shipper. Bing Cherry trees, grown in Geneva, N. Y., produced fruit that measured three and one-half inches in circumference.

Black Tartarian—This is a large, black, heart-shaped, tender, juicy Sweet Cherry of surpassing quality. The tree is an upright, dense grower, remarkably vigorous and a regular bearer of immense crops.

Gov. Wood—One of the finest of the light colored Cherries. Fruit is large, tender, juicy and of fine quality.

Napoleon or Royal Ann

Napoleon or Royal Ann—This is one of the largest and best of all Sweet Cherries. It is a magnificent variety, large, sweet, pale yellow, with a bright red cheek. It is a splendid shipper and fine for canning. To eat out of the hand it is unsurpassed. Flesh is very firm and juicy. The tree is a fine grower and an immense bearer.

Lambert—A wonderful variety of the Sweet Cherries and one of the largest. The skin is dark, purplish-red, almost jet-black when ripe. Flesh is firm, rich and juicy. The tree is hardy.

Schmidt's Bigarreau—The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy, with a fine rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market.

Windsor—The standard of excellence. It was brought over from Canada where it originated and is very hardy, very vigorous and prolific bearer. The fruit is large, liver colored and very handsome. The flesh is remarkably firm and of fine quality. It is most valuable late sweet Cherry for family or commercial use.

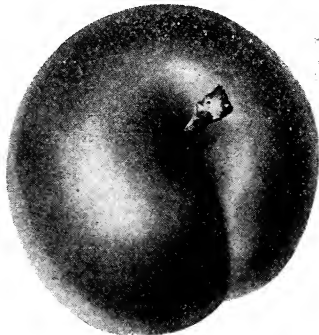

Yellow Spanish—A pale yellow Cherry with a bright red cheek on sunny side. Flesh is firm, juicy and delicious. It is one of the best and most beautiful of all light colored Cherries.

Plum Trees

PRICES OF PLUM TREES

5 to 7 ft., XXX Grade	85c	\$8.00
4 to 5 ft., XX	75c	7.00
5 trees at 10 rate		

EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD
\$1.00 each; \$9.00 per ten

Burbank

Burbank—This variety is very much like the Abundance, except that it is much deeper in color, and ripens from ten to fourteen days later. It is one of the handsomest Plums on the market and always finds a ready sale. The fruit is large, reddish-purple; flesh yellow, juicy and good. Tree is very hardy and vigorous. It will withstand the frost better than most varieties. August.

Bradshaw

Bradshaw—Very large; dark violet red; flesh yellow, juicy, good. Valuable market sort. August.

Yellow Egg—A large and beautiful variety fine for cooking purposes. August.

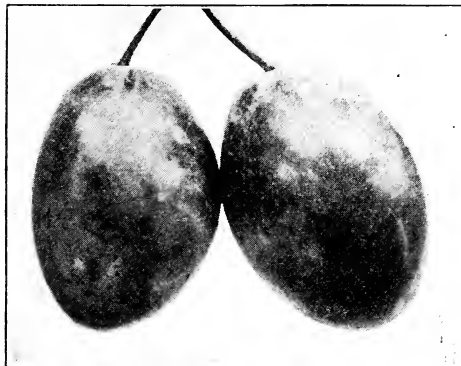

Abundance—The fruit is large, showy and beautiful. It has a bright cherry-red color. The flesh is yellow, firm, juicy, sweet and very delicious. Stone is small and parts freely from the flesh. August.

Lombard—A reddish Plum. It is a great favorite because it is a wonderful and early bearer and a hardy grower. Fruit hangs so thickly on the trees that it must be thinned. August.

Monarch—Very large, roundish oval; dark purplish blue; freestone; excellent. An abundant bearer. October.

Reine Claude—A delicious greenish-yellow Plum, spotted with red. It is of the finest quality and the housewife's ideal Plum for canning and preserving. One of the finest for quality, beauty and size. Ripens in September.

Shipper's Pride—Large; dark purple; quality fine, juicy and sweet. Excellent for canning. September.

Liberty Prune

Liberty Prune (formerly Wood's Improved German Prune)—Best of all Prunes for drying. This is a strain of the old German Prune which we have improved until we now can offer one that is larger, more uniform in size, than the old variety. Flesh is juicy, rich, delicious and very productive. September.

Felleberg (Italian or French Prune)—Purple; juicy, and delicious. Very fine and an excellent commercial sort. September.

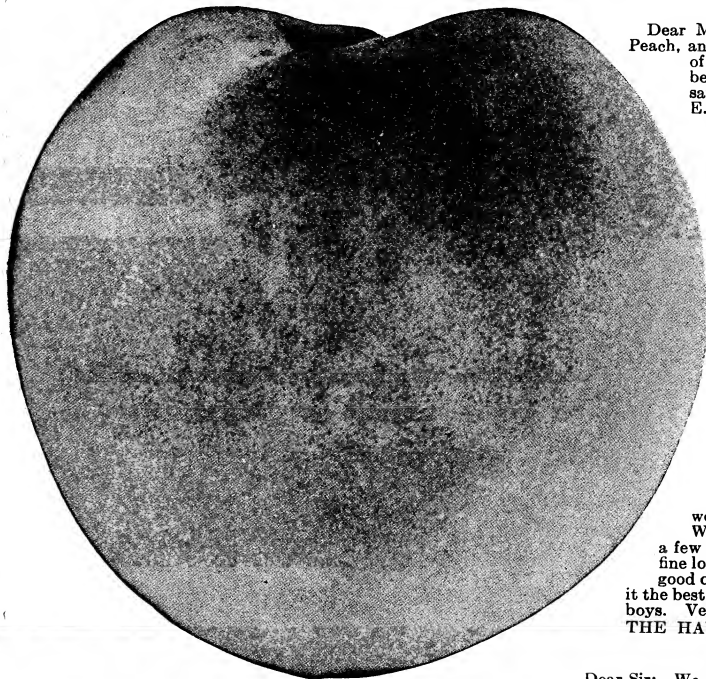

Wickson—Very large; deep red with white bloom; flesh firm, juicy. Remarkably long keeping qualities and an excellent commercial sort. September.

Apricot Trees

TWO YEARS OLD
XXX Grade, \$1.00 each

Moorpark—One of the largest. Yellow with red cheek, firm, juicy and very productive. An old and dependable variety. August.

WOODLAWN NURSERIES

"Dr. Worcester" "The 20th Century Peach"

"Dr. Worcester" Peach is of very large size, averaging from $8\frac{1}{2}$ oz., to 10 oz. Six Peaches weighed 3 lbs., $2\frac{1}{2}$ oz. Fruit is of good color; flesh is yellow, firm and very juicy. The flavor of the "DR. WORCESTER" PEACH is its chief merit. It is rich and sugary with a full Peach flavor. *An old gentleman said: "It tastes just like the old-fashioned Crawford that I used to get when I was on the farm."* Fruit Growers who sampled this new Peach, pronounced it the best they ever tasted. The skin is not as thick as that of the Elberta, but is firm, making it a good shipper, it is also a good keeper. These qualities combine to make the "DR. WORCESTER" PEACH a most valuable commercial sort. The tree is a healthy, vigorous grower, and good bearer. It is hardy and a late bloomer.

Price, \$1.00 each; \$10.00 per 10.
Only a limited quantity to offer.

We sell all "Dr. Worcester" Peaches under a special guarantee seal that is affixed to each tree or bundle of trees. We have the exclusive sale of the "Dr. Worcester" Peach.

Rochester, N. Y., Nov. 12, 1917.
My dear Mr. Wood: The "Dr. Worcester" Peaches which you sent me were sampled by the heads of the different departments of our Seed and Nursery establishment and all pronounced them the best and most luscious they have ever tasted. Apparently you have something in the Peach line extra good and worthy of introduction. Yours very truly, CHAS. H. VICK.

Mr. Vick is President of the James Vick's Seed Co.

Penn Yan, N. Y., Oct. 10, 1917.
Dear Mr. Wood: I have sampled the Peach, and pronounce it very good. It is of much better quality than the Elberta. Thanking you for letting me sample it, I remain Very truly yours.
E. C. GILLET, Sec'y of New York State Fruit Grower's Assn.

Rochester, N. Y., Nov. 10, 1917

Dear Sir: I had the pleasure of sampling your new Peach "Dr. Worcester" and consider it one of the finest Peaches I ever tasted. Not only has the Peach a fine flavor, good size, and a free stone, but the meat is very solid and the skin firm enough to make it a good shipper. That is something many of our very good Peaches lack. In the "Dr. Worcester" Peach I think you have something that will soon lead all others in demand. Yours truly,

ROBERT LOVE.

Rochester, N. Y., Oct. 12, 1917

Dear Sir: As per your request we give you our opinion of the "Dr. Worcester" Peach that you gave us a few days ago. We consider it a very fine looking Peach and an exceptionally good one in quality, in fact, we consider it the best that we have eaten since we were boys. Very truly yours,
THE HAWKS NURSERY COMPANY.

Sodus, N. Y., Oct. 10, 1917

Dear Sir: We have your favor of October 9th also the Peach which you call the "Dr. Worcester". We sampled it and it is not only a fine looking Peach, but has an excellent flavor. Yours truly,

B. J. CASE, Fruit Grower.

Brighton Station, Rochester, N. Y., Oct. 11, 1917

Dear Sir: Your letter of the 9th and the "Dr. Worcester" Peaches reached me yesterday. I think they are the finest Peaches I ever tasted. They are very solid and firm and should be a good shipping Peach. Their flavor is far superior to the Elberta. I hope some day to be able to see this Peach in bearing as it looks mighty good to me. Thanking you for the sample, I remain Yours very truly,

EMERSON A. BABCOCK, Fruit Grower.

N. Y. C. & H. R. R. R. Commissary, New York City
Oct. 20, 1917

Dear Sir: I have sampled the "Dr. Worcester" Peach and can only express my opinion by saying that it is unexcelled in its line. It combines a luxuriant juice and an appetizing flavor that I have never tasted in any other Peach. Wishing you success, I am yours very truly,

CHAS. EATON.

San Francisco, Cal., Oct. 18, 1915

Dr. J. W. Worcester,
Middletown, N. Y.

My dear Doctor: I received the sample of "Dr. Worcester" Peaches just before leaving the east for here. I divided with some of my neighbors and we all pronounced them the most delicious Peaches we ever had the pleasure of tasting. Surely some one ought to bud and sell the trees. Thanking you, I am yours very truly, CHAS. G. PORTER.

Mr. Porter is Superintendent of the Fruit Dept. at the New York State Fairs.

Rochester, N. Y., Oct. 16, 1917.

Dear Sir: The sample of your new Peach, "Dr. Worcester", which you showed us and which we sampled in our office recently, seems to be a fine acquisition to the list of Peaches. It was of good size and the flesh was yellow and firm indicating that it would stand shipping. It was also a perfect free-stone. From all we hear we think that it will be a Peach worth while cultivating. Yours truly,

C. M. HOOKER & SONS, Fruit Growers.

ALLEN L. WOOD, Rochester, N. Y.

AMERICAN * INSTITUTE * OF * NEW * YORK.

CERTIFICATE
OF MERIT
AWARDED TO

Dr. J. Warren Worcester,

New Seedling Peach "Worcester"
October 3rd 1895.

W. T. Apple
Secretary

Joseph J. Latta
President

HISTORY OF THE "DR. WORCESTER" PEACH

In the Fall of 1890 *Dr. Worcester of Middletown, N. Y.*, planted a bed of choice peach pits which he gathered from various sources. In 1892 he transplanted several of the strongest seedlings and in 1895, when these seedlings commenced to bear, all but one were cling-stones. *On one of the trees he found several yellow and crimson peaches of enormous size and great beauty which were perfect free-stones. In 1896 this tree was heavily loaded with very large, beautiful peaches.*

In 1897 *Dr. Worcester* sent two peaches to Mr. Chas. A. Green, of Rochester, N. Y. Mr. Green's response was as follows:

"Thanks for the two peaches, which are, indeed, *very large, very beautiful and of fine quality.*"

Mr. Green requested *Dr. Worcester* to send him the history of this peach.

In 1898 *Dr. Worcester* sent a basket of his seedling peaches to the *American Institute of New York* and they were so well pleased with them that they sent the doctor a Certificate of Merit.

Up to this time *Dr. Worcester* had only the original tree. In August 1899 he budded several trees to make a thorough test of this peach and continued to bud some each year.

My attention was called to this wonderful *Peach* in 1915 and for two seasons I went to see the trees while they were in bearing. The *size and high quality of the fruit* so greatly impressed me that I persuaded *Dr. Worcester* to permit me to bud it and offer it to the public.

5 trees at 10 rate; 50 at 100 rate

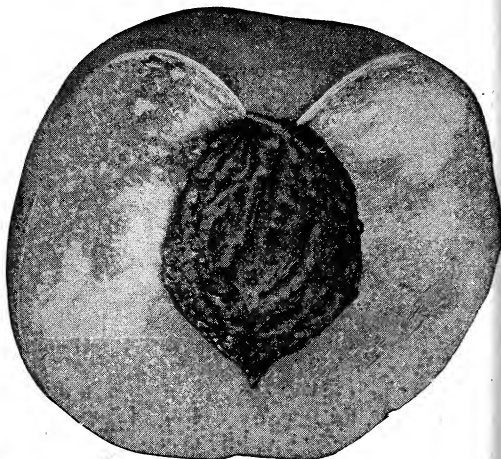

EXTRA LARGE SIZE TREES

\$1.00 each; \$9.00 per ten

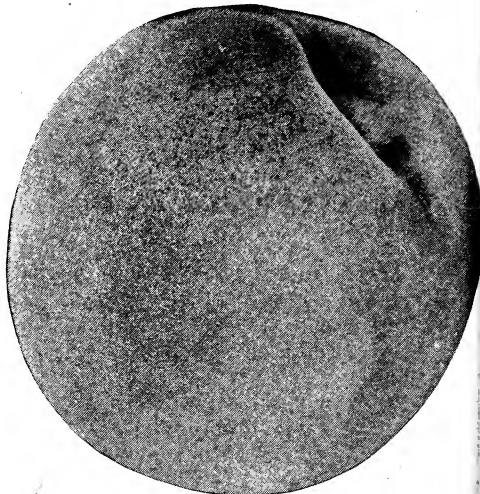

Hale

Hale—In size it is one-third larger than the Elberta and is more highly colored. The skin is deep crimson, smooth, tight, and without fuzz. Flesh is golden yellow, firm, and has a most delicious flavor. The pit separates easily from the flesh. It is exceptionally valuable as a commercial Peach owing to its unusual keeping and shipping qualities. Will ship nearly as well as an Apple. Fruit ripens about five days before the Elberta, but it will hang on the tree longer. Your collection is incomplete without this variety.

Woodlawn Golden

Woodlawn Golden—A new variety which we recommend for general culture. The fruit is large and highly colored; flesh is yellow, firm and flowing over with rich, finely flavored juice. Fine for canning as well as being the most desirable for eating from the hand. The tree is a strong grower and very productive. Perfect freestone. Ripens first of September.

Elberta—The Greatest Money-Maker of Them All

Elberta—The greatest commercial Peach on the market today. This variety is the most popular all over the country and there are more of these planted than of any other kind. It is undoubtedly the best orchard kind and also is valuable for garden planting.

OUR TREE PROTECTORS WILL KEEP THE MICE AND RABBITS FROM EATING THE BARK

on your young trees. These are made from a sheet of basswood 18 inches long and 9 inches wide. When wet they are rolled around the trunk of the tree. They are well made and will last for several years. Prices, 100, \$1.50; 500, \$5.50; 1000, \$10.

EXTRA LARGE SIZE TREES

\$1.00 each; \$9.00 per ten

Carman—Hardy and Early

Carman—A new, hardy, rot-proof Peach ripening from the middle to end of July. Fruit is large, oval shaped, yellowish white. Flesh is creamy white, slightly tinted with red, juicy and fine. Carman is a fine shipper and is freestone.

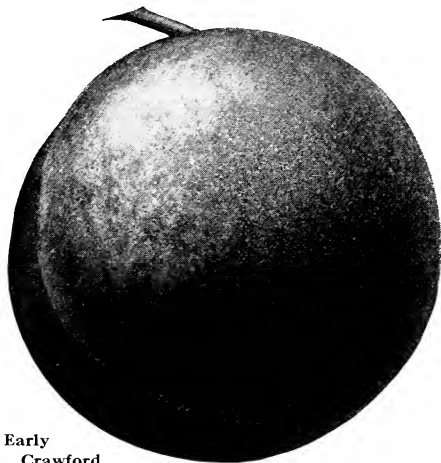

Belle of Georgia—Very large white Peach with red cheek. The flesh is white, firm and of fine flavor. The tree is a very rapid grower and very productive. A freestone Peach and ripens in September.

Champion—Large, handsome, creamy white with red cheek; sweet, rich, juicy; freestone. August. One of the best.

Crosby—One of the hardiest; abundant bearer; medium size; bright yellow; fine quality. Ripens about the middle of September.

Fitzgerald—Fully equal to Early Crawford in size, quality and color, with much smaller pit; a very early bearer.

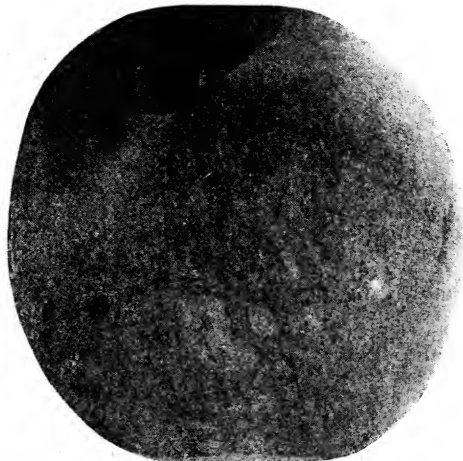

Yellow St. John—This is a large handsome Peach and very popular wherever it is grown. The flesh is yellow, rich and juicy. The flavor is equal to that of the Crawford. It ripens the latter part of July.

Early Crawford

Early Crawford—A magnificent large yellow Peach of good quality. Its size, beauty and productiveness make it one of the most popular sorts; no other variety has been so extensively planted. First of September.

Greensboro—The largest and most beautifully colored of all the early varieties. Flesh white, juicy and good. Its large size, attractive appearance and reliability in bearing combine to make it one of the best of its season. July.

Late Crawford

Late Crawford—Fruit is of the largest size; skin yellow or greenish-yellow with dull red cheek; flesh yellow; productive and one of the finest late sorts. Last of September. Freestone.

WOODLAWN NURSERIES

ASPARAGUS (2 years old)

Barr's Mammoth

To make a good Asparagus bed, prepare a plot of fine, loamy soil, to which has been added a liberal dressing of good manure. Set the plants 12 inches apart in the row and the rows 20 inches apart.

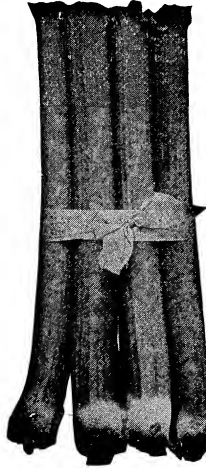

Barr's Mammoth—Robust and vigorous and throws large shoots which remain white above ground as long as they are fit for cutting.

Conover's Colossal—This variety is remarkably tender and finely flavored.

Palmetto—An early and great yielder and very even and regular in growth. It has been tested both North and South and has proved entirely successful in every way.

Price, 50c per 10; \$1.00 per 25; \$2.50 per 100; \$10.00 per 1000.

RHUBARB-PIEPLANT

Wood's Strawberry Rhubarb

2 year old plants
Strawberry Rhubarb all the year

You can have Early Strawberry Rhubarb throughout the entire year. Cut stalks of young Rhubarb into small pieces. Put these into fruit jars. Fill jar with cold water and seal up tightly. This will keep you in fresh Early Strawberry Rhubarb the entire year.

There is a number of different ways of serving Early Strawberry Rhubarb — pies, cakes, sauces, jellies, puddings, etc.

Prices, 25c each; 2 for 40c; \$1.50 per 10. \$12.00 per 100.

GOOSEBERRIES

PRICE OF 2-YEAR-OLD BUSHES
40c each; \$3.50 per 10; \$25.00 per 100

Downing—Large, pale green and of splendid quality for both cooking and table use.

Pearl—This variety bears a great resemblance to the Downing, but is superior in size and quality. It is very hardy; free from mildew and the most productive of all varieties.

Josselyn—Fruit red, large size, smooth, of best quality. Has been tested over a wide extent of territory by the side of all the leading varieties, and so far is free from mildew, both in leaf and fruit. A wonderful cropper, with bright, clean, healthy foliage.

CURRANTS

PRICE OF 2-YEAR-OLD BUSHES
35c each; \$3.00 per 10; \$25.00 per 100

Wood's Improved Cherry—A strain of the original Cherry which we have greatly improved upon. It is larger, has better bunches, and is a stronger grower. Fruit is large, deep red, and sub-acid.

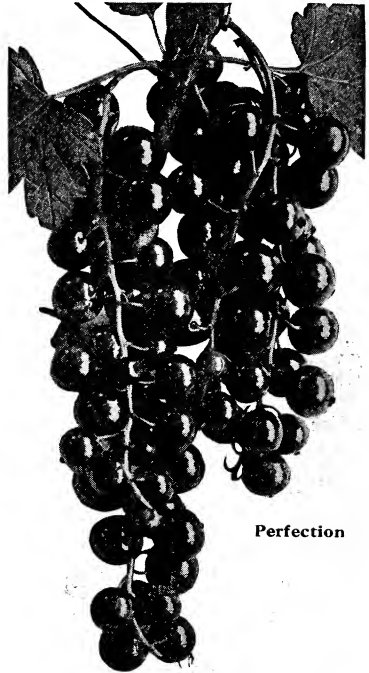

Red Cross—Very popular owing to its sweetness and fine flavor. New York Experiment Station says: "Red Cross is large and productive. The masses of fruit are so dense as to completely hide the bearing canes from view."

Fay's Prolific—Less acid than Cherry; bunch large, berries medium. A remarkable cropper.

White Grape—Very large, yellowish-white; excellent quality.

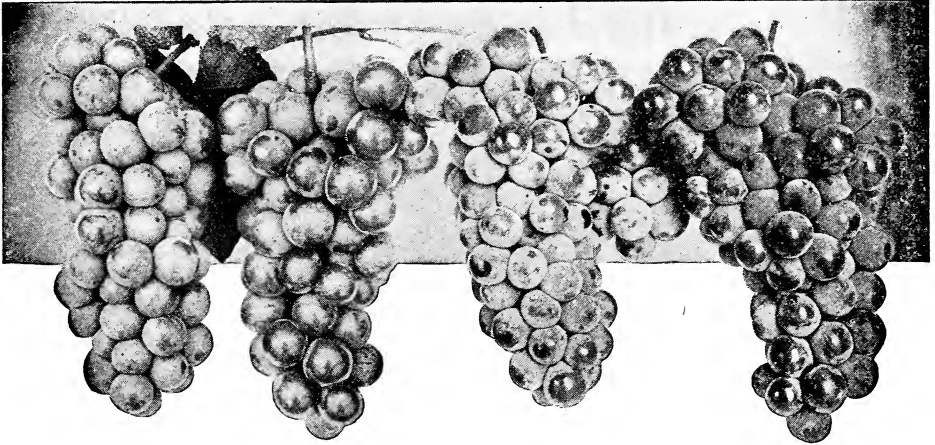

Wood's Giant Black—This is the largest and finest black variety known. Much valued for jellies. Prices, 45c each; \$4.00 per 10.

Lee's Prolific (Black)—Fruit is large and of fine quality. Very productive.

Perfection

Perfection—Won the Barry \$50.00 Gold Medal of the Western New York Horticultural Society. The color is a beautiful bright red; clusters long; large size berries. Price; 45c each; \$4.00 per 10.

Niagara

Lindley

Diamond

Concord

SELECT HARDY GRAPE VINES, 2 Years Old

PRICES OF GRAPE VINES
50c each; \$4.50 per 10; \$30.00 per 100

Agawam—Dark red. Large bunch and berry; rich, sweet and aromatic; vigorous and very productive.

Concord—There are more Concord plants by vineyardists than all other varieties combined. Berries large, black, covered with a rich bloom.

Lindley—Light red; sweet and tender. Should be grown with Concord or Worden.

Diamond—Greenish white with a yellow tinge; flesh juicy and very good. Vigorous and productive.

Niagara—Berries white, larger than Concord, sweet to center. Skin thin but tough. Ripens before Concord.

Grape Vines can be sent by mail
at a cost of 5c each

STRAWBERRIES

Prices of Monroe, \$1.00 per 25; \$2.00 per 100; \$15.00 per 1000. If sent by mail, \$1.10 per 25; \$2.25 per 100.

MONROE—We are proud to say that we introduced the "MONROE" which is the finest Strawberry on the market. It was tested for three years and in 1914 was awarded the BARRY GOLD MEDAL by the WESTERN NEW YORK HORTICULTURAL SOCIETY. The plant is a descendant of the "Sample," being very hardy and a strong grower. It makes plenty of long runners, each of which will make strong plants that bear fruit. The latest set plants will yield with "Sample" or "Clyde" and will beat "William Belt" or "Marshall" in quality. The season of ripening is what we call second early or about the time of "Senator Dunlap." The color of the berry is deep red, not red in spots as on some varieties, but red all around, making it a very handsome fruit. The flavor of the "MONROE" SURPASSES THAT OF ANY OTHER STRAWBERRY. It is very finely grained, very firm and red to the core. Everyone who has seen it on the plant or in the box declares IT IS A WONDER.

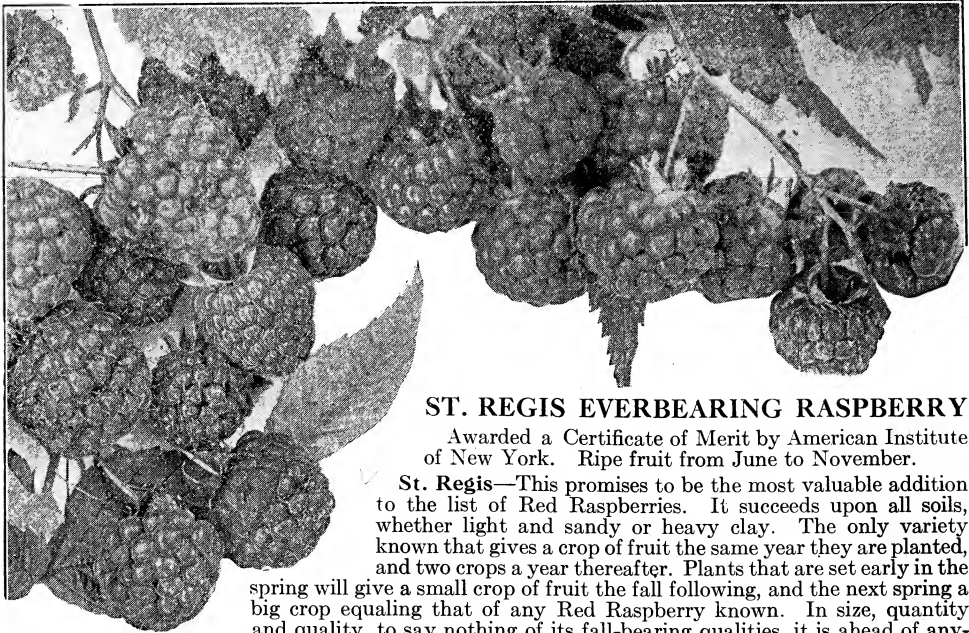

The **MONROE STRAWBERRY** was awarded the **BARRY GOLD MEDAL** by the Western New York Horticultural Society in 1914.

Gentlemen:—I have been in the berry business for 25 years, but have not seen anything to equal the Monroe. We picked 12,000 quarts of berries from three-fourths of an acre of plants. I am so greatly pleased with its high merits that I have discontinued growing all other varieties that I, heretofore, thought could not be equaled, and am growing only the Monroe.

Yours truly, GUS HERMAN.
Mr. Herman is known as one of the largest berry growers in Monroe County, N.Y.

RED RASPBERRIES

ST. REGIS EVERBEARING RASPBERRY

Awarded a Certificate of Merit by American Institute of New York. Ripe fruit from June to November.

St. Regis—This promises to be the most valuable addition to the list of Red Raspberries. It succeeds upon all soils, whether light and sandy or heavy clay. The only variety known that gives a crop of fruit the same year they are planted, and two crops a year thereafter. Plants that are set early in the spring will give a small crop of fruit the fall following, and the next spring a big crop equaling that of any Red Raspberry known. In size, quantity and quality, to say nothing of its fall-bearing qualities, it is ahead of anything we know of. About the middle of August it commences to set fruit on the young canes, and bears continuously from then until frost. The berries are large, beautiful and attractive. Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$35.00 per 1000; 50 to 100 rate; 500 at 1000 rate.

Wood's Improved Cuthbert—A strain of the original Cuthbert which we have been testing and improving for years. It is a strong grower, has healthy foliage, and is very productive if planted on good soil. Cuthbert is one of the old standard, reliable sorts that will give a good crop of large red berries that are firm, have rich flavor, and are of very fine quality; it is more largely grown than any other variety. We recommend it for either home use or field culture. Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$35.00 per 1000; 50 at 100 rate; 500 at 1000 rate.

Mr. E. S. Pratt of West Webster, N.Y., in 1918 sold one acre of Wood's Improved Cuthbert Red Raspberries on contract to the Beechnut Packing Company of Rochester, receiving 9c per pint or \$342.26 for the entire crop. In 1919 he received 15c per pint.

Columbian—Very large, often an inch in diameter; dark red, bordering on purple, adheres firmly to stem and will dry on the bush if not picked; of rich, sprightly flavor, the best for canning or evaporating, and probably the most productive of all raspberries. A most vigorous grower, canes ten to fifteen feet in length and often over an inch in diameter, strong and woody, its roots spreading and penetrating the soil to a great depth, thus enabling it to resist drought. It propagates from the tips and never suckers from the roots. It is very hardy, enduring 28° below zero without injury. Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$35.00 per 1000; 50 at 100 rate; 500 at 1000 rate.

East Herkimer, N. Y., R. D. No. 1

Gentlemen:

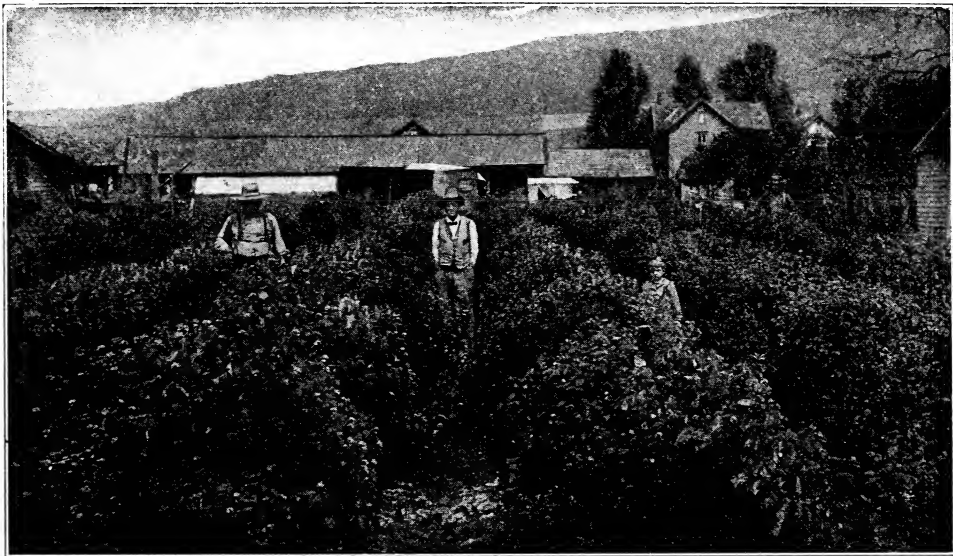

I read the account of Mrs. Robinson's crop of 2,710 qts. of Columbian berries from 1,000 plants. I picked 320 qts. from 80 three year old plants, averaging 4 qts. to a plant, and I nearly lost a picking from a heavy rain knocking them from the plants. I can send you the names of several of your customers who will vouch for this.

Very truly yours,

CLARENCE VanHORN.

Why not grow berries in your garden. 20 plants will furnish what you want for table use and for canning.

BLACK RASPBERRIES

One-year-old patch of Plum Farmer Black Raspberries owned by Boyd M. Smith, Berwick, Pa. Read letter below.

Dear Sir:—I am inclosing a photograph of my one-year patch of Plum Farmer Black Raspberries. I picked eight hundred (800) quarts from four hundred (400) plants—the first crop. They are the greatest thing I have ever seen. I learned of your firm through Mr. R. H. Hess of this town. He is a customer of yours and is not afraid to recommend you to his friends. Yours truly, BOYD M. SMITH, 1508 Pine St., Berwick, Pa.

Plum Farmer—The fruit is very large, often measuring an inch in diameter. It is a fine picker and brings the highest prices on the market. Wherever we have sold Plum Farmer it has given satisfaction and has been a money-maker for its grower. Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$35.00 per 1000.

Black Diamond—One of the best for home and market use. For drying and evaporating it excels all others. The fruit is large and handsome, and on account of its good size, good keeping qualities and its productiveness, is one of the most profitable to grow. Very sweet and excellent. Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$35.00 per 1000.

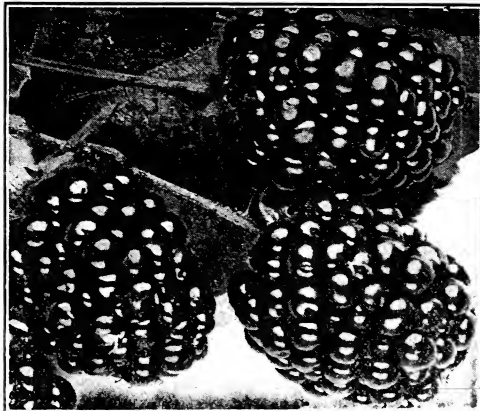

Kansas. Very large, handsome, firm, and of excellent quality; very hardy and productive. One of the best Black Caps.

Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$35.00 per 1000.

BLACKBERRIES

Blowers—"The Giant of all Blackberries." It is an upright, mammoth grower, is very hardy and enormously productive. A single plant produced over 2600 berries and from $\frac{3}{4}$ of an acre of land 112 bushels of fruit were picked which sold at \$4.80 per bushel or at a rate of \$716.80 per acre. The Blowers commence to ripen about the middle of July and bear about two months.

Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$40.00 per 1000.

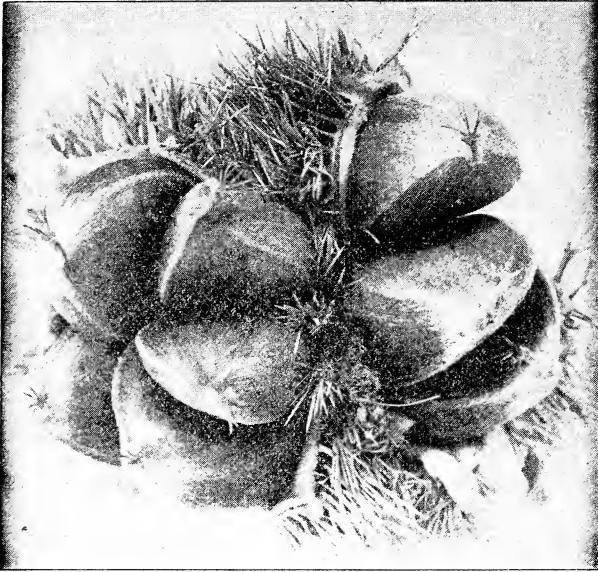

Snyder

Snyder—The "Old Faithful" of the Blackberries. Medium size, sweet and melting to the core; very hardy and wonderfully productive; valuable for home use and market.

Price, 2 for 25c; \$1.00 per 10; \$5.00 per 100; \$40.00 per 1000.

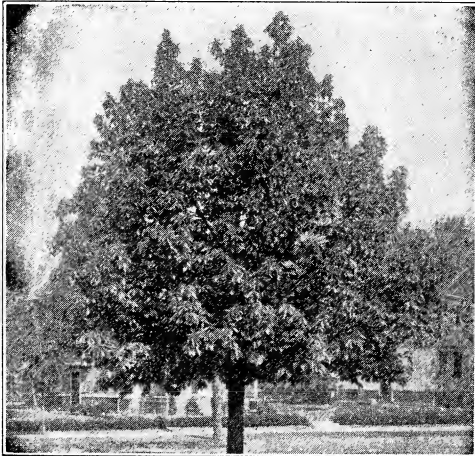

WOODLAWN NURSERIES

Northern Grown Nut Trees

Japan Chestnuts in the Bur

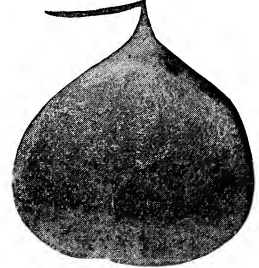

Japan Chestnut—Of dwarf habit, hardy, and extremely productive. The tree comes into bearing at an early age and the nuts are of enormous size. 3 to 4 ft., \$1.00 each; \$9.00 per 10.

Spanish Chestnut

Spanish Chestnut — Handsome, round-headed tree, producing large crops of very large Nuts that sell readily at good prices. Not as sweet as American. Valuable shade tree and very ornamental. 4 to 5 ft., \$1.00 each; \$9.00 per 10.

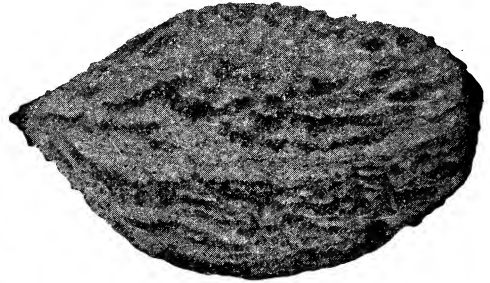

American Sweet Chestnut—This is the well-known native variety with which nearly everyone is familiar. It is a stately tree

American Chestnut

attaining great height when mature. It is beautifully symmetrical, and when in blossom is as handsome as a tree can be. It bears a Nut of good quality and seldom fails to produce a good crop. Aside from their crop

value, all Chestnut trees are especially desirable for shade purposes and for ornamental planting. 4 to 5 ft., \$1.00 each; \$9.00 per 10.

Butternut

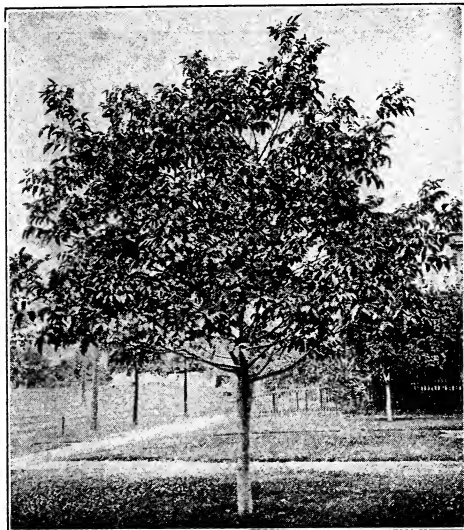

Butternut—Produces large, handsome, elongated Nuts with rich, sweet, oily kernel; very nutritious. Cultivation increases the size of the Nuts. The tree grows rapidly and yields large crops in a few years. At present the supply is insufficient for the demand of a single city market. There are large profits in Butternut growing. A small outlay will bring large returns as soon as the trees begin to bear. 4 to 5 ft., \$1.00 each; \$9.00 per 10.

Williamsville, N. Y., Oct. 9, 1919.
Allen L. Wood: I wish to state that the trees you sold me are the finest in this section, and will favor you with another order later on.

Yours truly, M. J. BINGEMAN.

ALLEN L. WOOD, Rochester, N. Y.

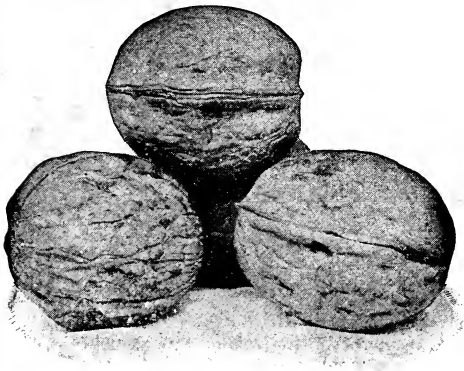

Northern Grown Nut Trees

English Walnut

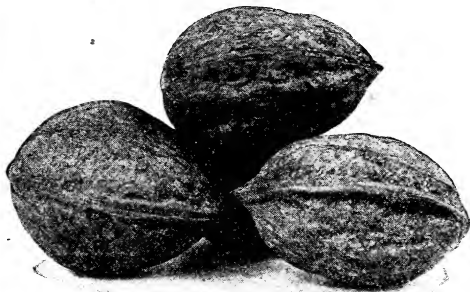

English Walnut—An exceedingly handsome tree for the lawn. It produces large crops of thin shelled, delicious Nuts which are always in demand at good prices. The English Walnut can be grown in the Eastern and Northern States as well as in California and the South. It is grown successfully in Monroe County, N. Y., and we have some extra nice trees growing in our nursery.

2 to 3 ft., \$1.00 each; \$9.00 per 10
3 to 4 ft., \$1.25 each; \$11.00 per 10

The Nuts in the above photograph were picked from a five-year-old English Walnut tree near our office.

Mr. Thomson, of East Avon, N. Y., owns the largest commercial orchard of English Walnuts in the East. This orchard has endured 30 years with absolutely no winter killing with occasional temperatures 20° below zero. 1915 crop, 260 bushels, was sold at 25c per pound. 32 pounds per bushel \$2,080.

Japan Walnuts picked from a six-year-old tree

Japan Walnut—A choice improved variety, grows with great vigor, forming a handsome head without pruning; has withstood a temperature of 20° below zero without injury. The shell is a little thicker than that of the English Walnut, which it resembles in a general way; kernels are meaty, delicate, and can be removed entirely. Tree begins to bear when 2 or 3 years old. 3 to 4 ft., \$1.00 each; \$9.00 per 10.

A. Y. Cathcart, Bristol, Ind., says: "I have been raising Japan Walnuts for 18 years and am more than pleased with them. They are very hardy and do well in Maine, Minnesota, and Canada, as they have stood 30 degrees below zero without injury. The trees come into bearing young. I have trees three years old that bore Nuts this season; 18 years old, each have three to four bushels. In quality the Nuts resemble the Butternut, being much richer than English Walnut. Trees grow very fast and are fine for shade."

Black Walnut

Black Walnut—Bears a heavy crop of large, round Nuts of excellent quality. They are much relished and bring a good price on the market. The tree is a rapid grower attaining a large size and majestic form; has beautiful foliage. Very valuable for its timber, which enters largely into the manufacture of fine furniture and cabinet ware. 4 to 5 ft., \$1.00 each; \$9.00 per 10.

ORNAMENTAL TREES

Avenue of Norway Maples

A denotes trees which attain the largest size, 50 feet and upwards.
 B " " " " " secondary size, 20 to 40 feet.
 C " " " " " medium size, 8 to 15 feet.

MAPLE TREES

Maple, Norway (A)—The compact, vigorous nature of this tree renders it desirable for the street or lawn. The growth is fairly fast, the head massive and rounded, with broad rich green foliage. This variety is highly recommended by the Shade Tree Commissioners for street and park planting.

	Each	Ten	Hundred
6 to 8 ft.	\$1.00	\$ 8.50	\$ 75.00
8 to 10 ft.	1.50	12.00	100.00
10 to 12 ft.	2.00	15.00	125.00
Extra 2 in. Caliper. . . .	3.00	25.00	200.00
Extra Large 2½ to 3½ in.	5.00	40.00

Maple, Ash-Leaved or Box Elder (B)—A fine rapid growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

8 to 10 ft., \$1.00 each; \$8.50 per 10
 10 to 12 ft., \$1.50 each; \$12.00 per 10

Maple, Schwedlerii (Red Leaved) (B)—An excellent and striking variety. The beautiful leaves attract attention all season, but are especially fine in spring, when their gleaming red and purple contrast brightly with the delicate green of other trees. Purplish-green in midsummer; golden yellow in autumn. 8 to 10 ft., \$2.50 each.

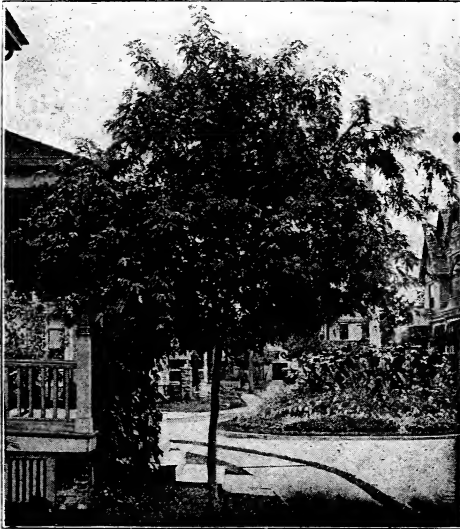

Maple, Sugar or Rock (A)—A native tree valuable for its production of sugar and wood. Very stately in form, rapid grower and has fine foliage. Valuable ornamental variety. 8 to 10 \$1.50 each; \$12.00 per 10.

Silver Maple—A favorite for the street, park or lawn

Maple, Silver-Leaved or Soft Maple (A)—Of rapid growth, large size, and rounded form; foliage bright green above and silvery beneath; very hardy and easily transplanted

	Each	Ten	Hundred
6 to 8 ft.	\$0.75	\$ 7.00	\$60.00
8 to 10 ft.	1.00	9.00	80.00
10 to 12 ft.	1.50	12.00	100.00
Extra Large Size	2.50	20.00	

Wier's Cut-Leaved Maple

Maple Wier's Cut-Leaved (A)—This is one of the most remarkable and beautiful trees with cut foliage. Its growth is rapid, shoots slender and drooping, giving it a habit almost as graceful as the Cut-Leaved Birch.

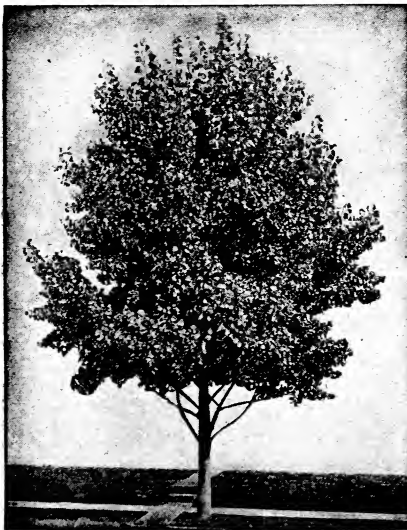

8 to 10 ft., \$1.50 each; \$12.00 per 10

Oriental Plane

Oriental Plane (A)—A well known tree. Extensively used for street and park planting, especially in cities where there is much smoke.

	Each	Ten	Hundred
8 to 10 ft.	\$1.50	\$12.00	\$100.00
10 to 12 ft.	2.00	15.00	125.00

Carolina Poplar

Poplar, Carolina—A remarkably rapid, luxuriant grower. Very large leaves, very glossy, deep green. Valuable as a street or shade tree where shade is desired quickly. Useful for planting as a screen to hide unsightly buildings or as a windbreak for an orchard or garden plot.

	Each	Ten	Hundred
8 to 10 ft.	\$0.75	\$6.50	\$50.00
10 to 12 ft.	1.00	8.50	75.00

Lombardy Poplar

Poplar, Lombardy (A)—The erect, vigorous and full spiry form lends a charm and dignity to a street, boundary or landscape. Very desirable on large grounds to break the average heights and forms of other trees.

	Each	Ten	Hundred
8 to 10 ft.	\$1.00	\$ 8.50	\$ 75.00
10 to 12 ft.	1.50	12.00	100.00

WOODLAWN NURSERIES

Rivers' Beech is noted for its rich, glossy foliage

Beech, Rivers' Purple-Leaved (B)—An elegant, compact, low-branching tree. Foliage crimson, changing to dark purple in summer. Finest of all purple-leaved trees, a most striking lawn tree. 4 to 5 ft., \$2.00 each.

Bechtel's Double-Flowering Crab

Crab's, Bechtel's Double-Flowering (C)—One of the most beautiful of the many fine varieties of the flowering crabs. Tree medium size, covered in early spring with large, double, fragrant flowers of a delicate pink color. From a distance they have the appearance of roses. 2 to 3 ft., 75c each; 3 to 4 ft., \$1.00 each.

Catalpa, Bungeii each side of walk

Catalpa, Bungeii (Umbrella Catalpa) (C)—Grafted on stems 6 to 8 ft. high, it makes an umbrella shaped top without pruning; perfectly hardy. Leaves large, glossy, heart-shaped, deep green. One of the most unique trees; desirable for lawn, park and cemetery planting. Two-year heads, extra large, \$2.00 each.

Catalpa, Speciosa (A)—This medium to large tree with its tropical-like foliage and its pyramids of white flowers is worthy of a place in every collection. It is very ornamental and is a valuable tree for the street or park. 7 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.50 each.

Cut-Leaved Birch

Birch, Cut-Leaved Weeping (A)—Its tall, slender, yet vigorous growth, graceful, drooping habit, silvery-white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. 6 to 8 ft., \$1.50 each.

ALLEN L. WOOD, Rochester, N. Y.

Tea's Weeping Mulberry

Mulberry, Tea's Weeping (C)—One of the finest, most graceful and satisfactory of weeping trees. Umbrella shaped head, with slender willowy branches drooping to the ground. It has beautiful glossy foliage, handsomely cut or divided into lobes. It is perfectly hardy. \$2.00 each.

Weeping Mose Rose Locust (C)—One of the most beautiful of the Weeping Trees with long elegant clusters of rose colored flowers that bloom from June until frost. Perfectly hardy. \$2.50 each.

Magnolia Tripetala (B)—Called Umbrella Tree on account of its great, glossy, green leaves which makes it a very desirable tree for lawns; bears white flowers of great size in June which are followed by rose colored fruit cones. 4 to 5 ft., \$1.50 each; \$12.00 per 10.

Mulberry, Downing (B)—Berries very large, black, and of excellent quality. Should be in every garden. Very valuable when planted near a Cherry Orchard as the birds will eat this fruit instead of the Cherries. 5 to 6 ft., \$1.00 each; \$8.50 per 10.

Mulberry, Russian (B)—A hardy variety. Tree is a rapid grower; foliage is abundant. 7 to 8 ft., \$1.00 each; \$8.50 per 10.

Mountain Ash (B)—A favorite; erect growing tree of medium size, producing white flowers early in the Spring, followed by clusters of bright scarlet berries which remain on the tree through the Winter. 8 to 10 ft., \$1.50 each.

Thorn, New Double White (C)—This tree deserves to be classed among the most beautiful of all ornamental varieties on account of both foliage and flowers. 4 to 5 ft., \$1.00 each.

Plum, Purple-Leaved (Prunus Pissardi)—A distinct and handsome little tree, covered with a mass of small, white, single flowers in spring; later, with showy pinkish purple leaves that deepen in color to the end of the season. A unique lawn ornament at all times of the year. 4 to 5 ft., \$1.00 each.

Willow, Babylonia (B)—A well known, weeping variety. Most graceful tree of large size. 7 to 8 ft., \$1.00 each.

Willow, Golden (B)—A distinct variety, with bright golden bark. Habit same as Babylonia. 7 to 8 ft., \$1.00 each.

American Elm Finest Street and Shade Tree

Elm, American (A)—The Elms are so well known that it is unnecessary to refer to their beauty and value for ornamental planting. We grow the American on an extensive scale, for street and park planting. 8 to 10 ft., \$1.00 each; \$8.50 per 10; 10 to 12 ft., \$1.50 each; \$12.00 per 10.

Elm, Camperdown (Weeping Elm)—One of the most picturesque weeping trees. 6 to 8 ft., \$2.00 each.

American Linden or Basswood

Linden, American (B)—Of unusual stately beauty. Foliage is luxuriant and the curious cream colored flowers have a delightful fragrance. Blooms in July. Growth is rapid and upright. Extra fine Trees, 10 to 12 ft., \$2.00 each; \$15.00 per 10.

WOODLAWN NURSERIES

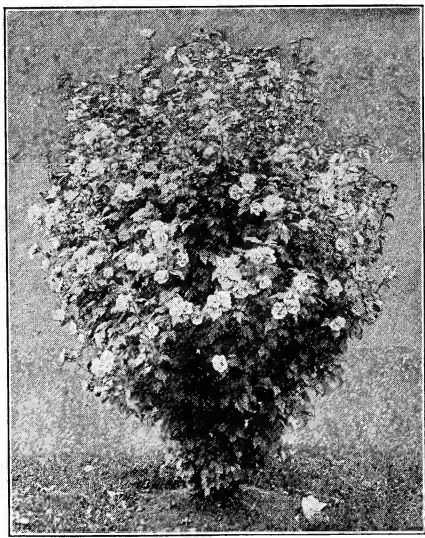

Here we have a general planting that is not only effective and in harmony with the surroundings, but displays confidence and neighborly feeling.

ORNAMENTAL SHRUBS

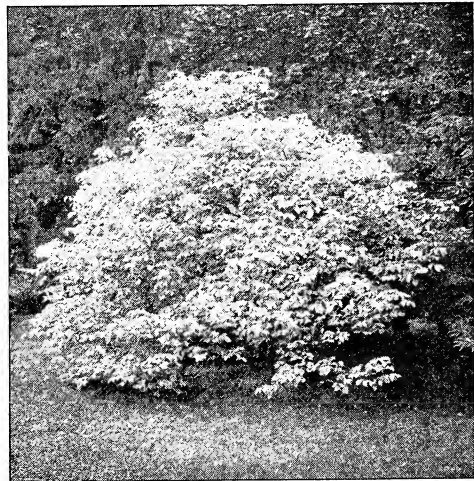

The Shrubs we grow are of the very choicest varieties, are extra strong, two or three years old and from two to four feet in height.

D denotes shrubs, which attain 9 to 12 feet in height at maturity.
 E " " " " 5 to 8 " " "
 F " " " " 2 to 4 " " "

Althea, or Rose of Sharon

Althea, or Rose of Sharon (D)—Flowers are of good size, trim and attractive; blooms in September and October. Colors, Pink, Purple, Red, White, 50c each.
Tree Althea (D)—Same as bush, but grown in tree form, with single stem. 75c each.
Almond (Large Double Flowering) (E)—One of the most beautiful early flowering shrubs, bearing double flowers like small roses. Dark red, 50c each.

Cornus are very attractive when planted singly, in groups or for massing, being distinguished for their elegant foliage

Cornus, Elegantissima (Variegated Leaf) (E)—One of the finest shrubs, with beautifully variegated foliage. Some leaves are broadly margined with white, while others are entirely white. 50c each.
Cornus, Sanguinea (E)—A fine, rapid-growing shrub with red bark; leaves have a broad margin of white. One of the very best variegated-leaved shrubs. 50c each.
Calycanthus, or Sweet-Scented Shrub (E)—Its foliage is rich; flowers of a rare chocolate color, with an agreeable odor. Blossoms in June. Very desirable. 50c each.

ALLEN L. WOOD, Rochester, N. Y.

Butterfly Bush

Butterfly Bush (E)—This beautiful shrub is greatly admired by everyone and should be included in every collection. Matures rapidly and will make a handsome bush the first season. It produces beautiful lilac-colored flowers in profusion. Blossoms the entire summer; splendid for cutting. Should be cut back to the ground early every spring. 35c each.

Thunbergii Barberry

Barberry, Thunbergii (F)—A shrub of marked excellence on account of its bright green foliage, which changes to brilliant red in the fall, and its bright red berries, which are conspicuous throughout the winter. The habit is dwarf and regularly spreading. Grows well in the shade and is extensively used in landscape work. Very hardy; has never been known to winter-kill. 35c each.

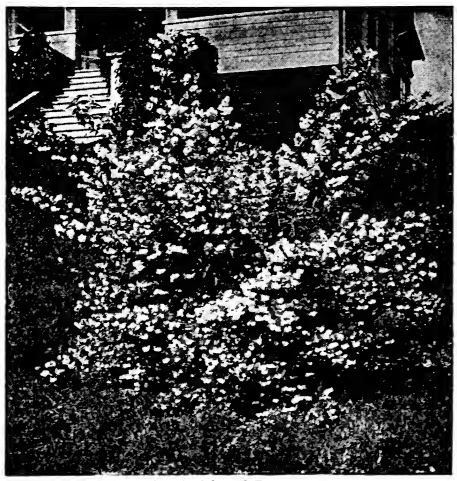

Deutzia, Gracilis

Deutzia, Gracilis (F)—A charming species of dwarf habit; flowers pure white. Fine for growing in front of taller shrubs. 40c each.

Deutzia, Candida (E)—Pure white flowers, very double. 40c each.

Deutzia, Lemoineli (F)—Pure white flowers, borne on stout branches of upright growth. Dwarf habit, free flowering. 50c each.

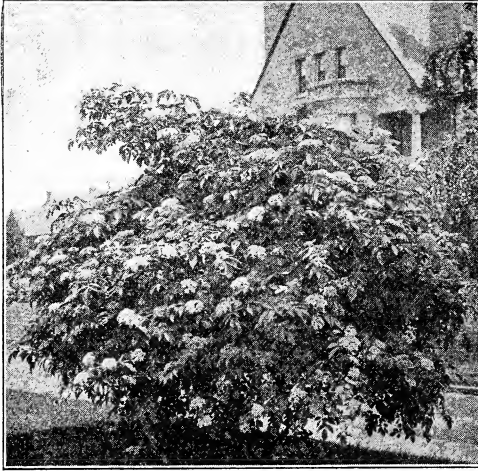

Deutzia, Pride of Rochester

Deutzia, Pride of Rochester (E)—Very large double white flowers. It excels in size of flower, profuse bloom and vigorous growth; nearly a week earlier than Deutzia Crenata. 35c each.

Purple-Leaved Filbert (E)—A very ornamental shrub, with large, dark purple leaves, particularly effective in shrubberies, or when planted by itself. 85c each

Eastwood, Mo., Nov. 25, 1919.
 Allen L. Wood, Rochester, N. Y.
 Dear Sir:—Trees arrived the 11th. They were some of the healthiest stock I have ever seen. Future orders will be yours; will also recommend your Nurseries to friends.
 Yours for Business,
 DANIEL J. CORCORAN.

WOODLAWN NURSERIES

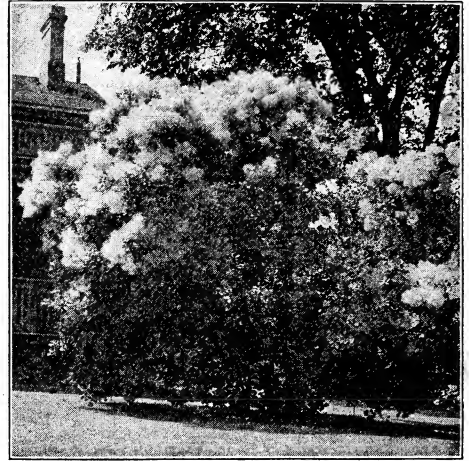

Golden Elder

Elder, Golden-Leaved (E)—A handsome variety with golden-yellow foliage, which renders the plant very conspicuous and effective; white flowers. 50c each.

Forsythia, or Golden Bell (E)—A very early and showy spring bloomer; flowers bright yellow, appearing before the leaves. Very effective for covering steep slopes, walls, fences and arbors. 40c each.

Kerria, Japonica (F)—A green branched, slender, graceful shrub, with drooping branches; rich, dark yellow flowers which bloom all summer. 40c each.

Purple Fringe

Fringe, Purple (Smoke Tree) (D)—A small tree or shrub very much admired on account of its peculiar fringe, or hair-like flowers, covering the whole surface of the bush in mid-summer. 50c each.

Quince, Japan (E)—Dark green foliage, and showy, deep scarlet flowers of good size, produced singly or in masses along the branches. Much admired and often used for hedges. 40c each.

Tamarix (E)—A strong upright grower, with fine feathery foliage. Small pink flowers. Splendid shrub for seaside planting. 50c each.

Honeysuckle, Upright (E)—A well known shrub of erect habit. Valuable for its handsome flowers and showy fruit. Delightfully fragrant; one spray will fill a room with its delicate perfume. Colors, Pink, Red and White. 40c each.

High Bush Cranberry (E)—Very ornamental. Its red berries resembling cranberries which hang on until destroyed by frost. 50c each.

Golden Syringa

Syringa, Golden (F)—A very pretty medium sized shrub with golden-yellow foliage. It keeps its color the entire season. Very valuable to plant with other shrubbery. 50c each.

Syringa (E)—Of vigorous habit. Very hardy, with large handsome foliage and beautiful white flowers produced in greatest profusion. One of the best and most popular shrubs. 40c each.

The planting of shrubs should not be figured as a luxury, but as an investment for the improvement of property.

Hydrangea, P. G.

Hydrangea, P. G. (E)—One of the most popular hardy shrubs. The immense heads of bloom are cream-color in bud, pure white when fully expanded, changing to pink and bronze with age, and finally to brown when frosted. **40c each.**

Hydrangea, P. G., Tree Form (E)—Same as bush, but grown in tree form with single stem. 2 to 3 ft., **75c**; 3 to 4 ft., **\$1.00.**

Hydrangea, Arborescens

Hydrangea, Arborescens Grandiflora Alba (Hills of Snow) (E)—This hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. **50c each.**

LILACS—Named Varieties

During the last few years there has been many new varieties of Lilacs introduced. These greatly surpass the older varieties both in their color, blooming and fragrance. The list given below covers the cream of recent productions.

Lilac, Ludwig Spaeth

Lilac, Ludwig Spaeth (E)—Flowers large and a deep purplish red. Very desirable, **75c each.**

Lilac, Pres. Grevy (E)—One of the finest. Panicles large and flower a beautiful blue. **75c each.**

Lilac, Purple (E)—Bluish-purple flowers, standard variety; always good. **50c each.**

Lilac, White (E)—Cream colored flowers; very fine. **50c each.**

Lemoine Lilac

Never fails to charm with its delicate beauty

Lilac, Lemoine (D)—A choice variety bearing large clusters of double white flowers. **75c ea.**

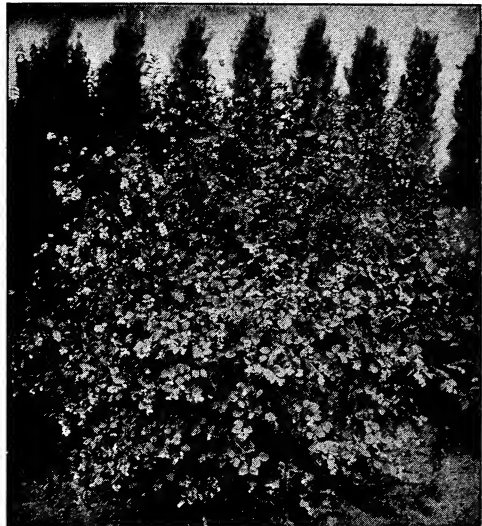

WOODLAWN NURSERIES

Common Snowball

Snowballs are magnificent and it is impossible to give them too much praise. Their adaptability for combinations with other shrubs is unexcelled.

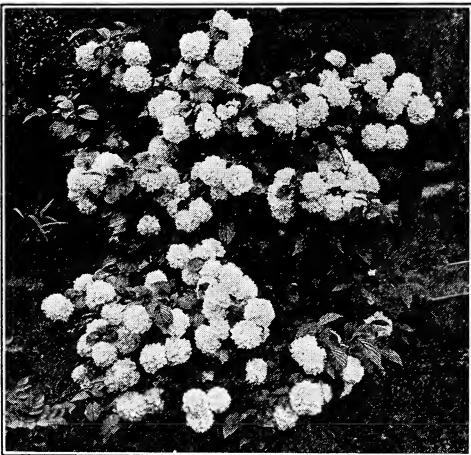

Snowball, Common (E)—A well-known favorite shrub producing its snowy-white sterile flowers in large balls in June. 40c each.

Snowberry

Snowberry, Racemosus (E)—Bushy form, small pink flowers in summer; quantities of large, white, waxy, roundish berries in autumn that remain on the plant through part of the winter. 40c each.

Snowberry, Vulgaris (E)—Low growing, spreading, graceful habit; foliage attractive; noteworthy from the beauty of its clusters of red berries which hang on the bush all winter. 40c each.

Japan Snowball

Snowball, Japan (*Viburnum Plicatum*) (E)—An erect, compact shrub, blooming in June; completely covered with large balls of flowers that are as white as snow; foliage is dark green. We recommend this most highly. 60c each.

Privet

Privet (E)—Handsome, smooth, shining green leaves; spikes of white flowers in June. Compact and regular in form. It is almost an evergreen and thrives in all soils. Very showy. 35c each.

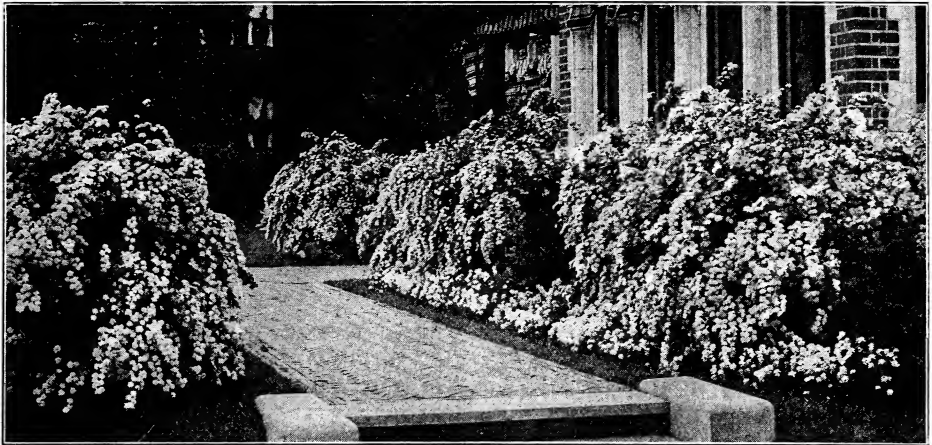

Honeoye, N. Y., May 22nd, 1919.

Woodlawn Nurseries,
Gentlemen:—The shrubs have arrived and are most satisfactory in every way. They are without exception the finest shrubs I ever received from any nursery. Thanking you for filling my orders so satisfactorily, I am,

Yours truly,

GEO. P. BLAKMER.

The planting of shrubs should not be figured as a luxury, but as an investment for the improvement of property.

Spirea Van Houttei is especially attractive when planted in groups

The Spireas are elegant shrubs, of the easiest culture, and their blooming extends over a period of three months.

Spirea, Van Houttei (E)—Without doubt the finest of all the Spireas. During the flowering season in May and June, the bush is covered with white flowers, presenting a beautiful appearance. Very hardy. Each year it is becoming more popular, playing a prominent part in landscape work. 40c each, \$3.50 per 10.

Spirea, Anthony Waterer

Spirea, Anthony Waterer (F)—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in perfection all Summer. 50c each.

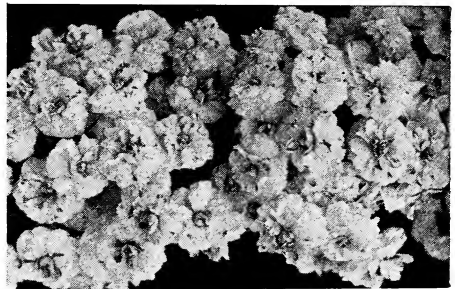

Spirea, Aurea (Golden) (E)—Foliage green, bordered with rich golden yellow. In June the branches are covered with double white flowers. Very conspicuous. 40c each.

Spirea Bumalda (F)—A low growing bush with dark leaves. Blooms early in May. Flowers a delicate pink. Very desirable. 40c each.

Spirea, Thunbergi (F)—A dense, feathery bush. The foliage, which is a peculiar shade of yellowish green, changing in autumn to bright red and orange. Flowers pure white, borne in feathery masses in early spring. 50c each.

Spirea, Billardi (E)—Rose colored flowers in spikes; blooms nearly all summer. 40c each.

Spirea, Blue (New) (F)—Produces beautiful blue flowers all through autumn until checked by frost. Very profuse bloomer and one of the best of the late flowering shrubs. Showy in itself and fine for planting in contrast with other shrubbery. 50c each.

Spirea, Prunifolia

Spirea, Prunifolia (Bridal Wreath) (E)—A superb old-fashioned variety, with graceful, upright, slender branches covered with a wreath of white flowers in May. 50c each.

R. R. No. 3, Pottstown, Pa., April 17, 1919.

Gentlemen: Received stock in good condition, the finest stock I have ever received from a nursery and the packing department deserves a lot of credit for the manner in which they pack the stock.

Yours respectfully,
JOS. A. BROWN.

We have no agents selling our stock, therefore we save you agents' commissions. Send cash with order. "Wood Quality" stock is the best.

WOODLAWN NURSERIES

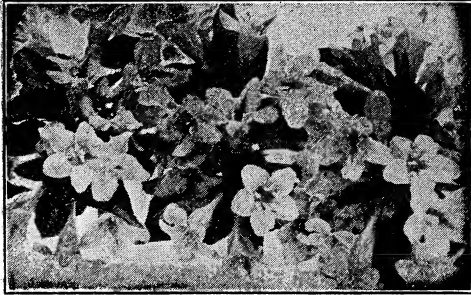

Weigela, Candida

Weigela, Candida (E)—A choice variety, blooming in great profusion during June and to some extent all summer. Pure white. **40c each.**

Weigela, Eva Rathke

Weigela, Eva Rathke (F)—Flowers brilliant crimson. A very attractive variety. Almost a continuous bloomer. **50c each.**

Weigela, Rosea

Weigela, Rosea (E)—An elegant shrub, with fine rose-colored flowers; of erect, compact growth; blossoms in June. **40c each.**

Paeonie, Duchess de Nemours

Duchess de Nemours—A choice variety. Pure white crown, sulphur white collar. Vigorous grower and free bloomer. Early.

PAEONIES

Paeonie—A noble flower almost rivaling the Rose in brilliancy of color and perfection of bloom. Hardy as an oak. In the most severe climate the plants require no protection. Each year adds to their size and beauty. Price of two year old roots, **50c each; \$4.50 per 10.**

Edulis Superba—Large, early and fragrant. Bright pink color mixed with lilac. Strong upright grower; very free bloomer. A good Decoration Day variety.

Festiva Maxima—Very large snow white, some petals crimson. Tall showy and vigorous grower. Early.

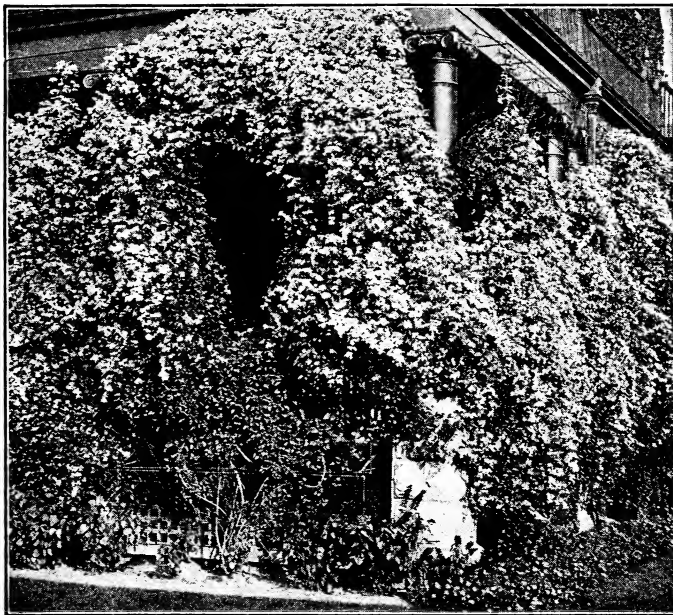

Humei—Large, very full; clear cherry pink. Strong grower. Late variety.

L. Indispensable—Very full; lilac-white shading to pale violet rose toward the center. Strong growers. Midseason.

Louis Van Houette—Deep carmine rose with purple tints; very showy. Late.

Rubra Triumphans—Large dark crimson; strong grower. Very attractive bloom. Early midseason.

ORNAMENTAL VINES If sent by mail add 5c per vine

Clematis Paniculata

Clematis, Paniculata—Single, white. Of extremely rapid growth, with shining green foliage, and a profusion of flowers which are small but borne in large panicles; very popular. 75c each.

Birthwort or Dutchman's Pipe—Brownish flowers, resembling a miniature pipe. This is an ideal vine for situations requiring dense shade. Splendid for archways or verandas. The leaves are very large, broad and closely laid; deeply green, and vine grows rapidly. \$1.00 each.

Chinese Matrimony Vine—One of the hardiest of climbing vines. Purple flowers and later covered with scarlet berries. In China where they have a marriageable daughter, the parents plant one in front of the house. 50c each.

Clematis, Jackmanni
Large, intense violet purple and remarkable for its velvety richness; free in growth and abundant and successive bloomer. 75c each.

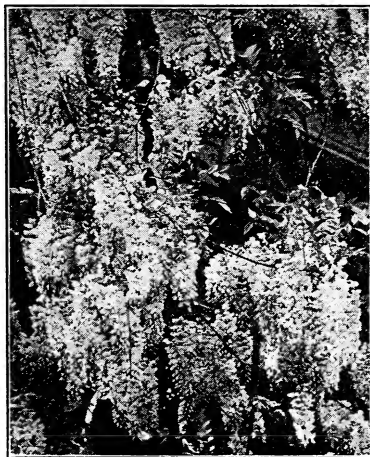

Clematis, Henryii—Single: the finest white Clematis; very large, fine flowers; grows rapidly blooms freely during summer and autumn. 75c each.

Clematis, Mme. Ed. Andre—Flowers medium size: dark red; velvety; very free flowering. 75c each.

Ampelopsis Veitchii (Japan Ivy)—A beautiful, hardy, climbing plant of Japanese origin. It grows rapidly and clings with the tenacity of Ivy; the foliage is very handsome green in summer, changing to crimson in autumn. For covering brick and stone structures, walls, stumps of trees, rockeries, etc., no plant is so useful. 50c each.

Ivy, American or Virginia Creeper—A fine rich green in summer, changing to crimson in autumn.

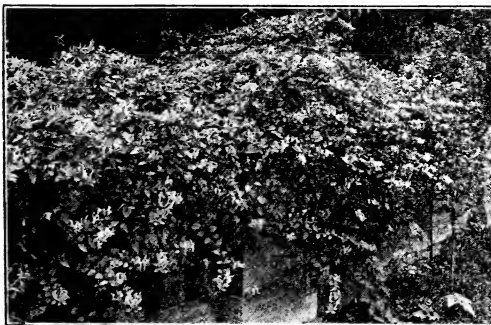

Affords shade quickly and is very desirable for covering walls, verandas, or trunks of trees. 50c each.

Wistaria, Purple

Wistaria Chinese Purple—One of the most elegant and rapid growing of all climbing plants. One must see this plant in bloom to appreciate its magnificence. Has long pendulous cluster of pale flowers. 50c each.

Wistaria Chinese White—A most beautiful and striking vine. Can be used to cover trellises, porches, etc. 75c each.

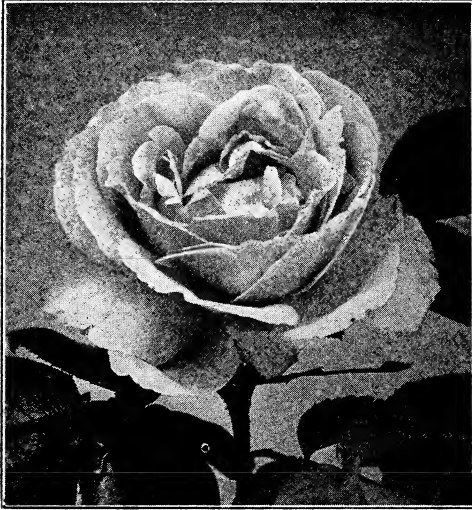

Hall's Japan Honeysuckle

Honeysuckle, Hall's Japan—A strong, vigorous grower, almost evergreen, with pure white flowers, turning to yellow; very fragrant; covered with flowers from July to December. 40c each.

WOOD'S CHOICE ROSES

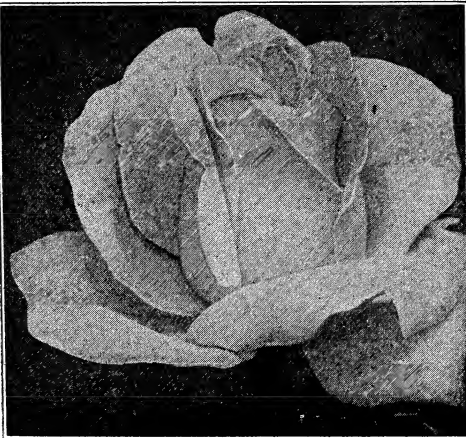

Our Roses are field grown, strong, and hardy; will bloom the first year.
If sent by mail, add 5c per plant.

General Jacqueminot

General Jacqueminot—Flowers are large, brilliant crimson; rich and velvety; buds are exceedingly handsome; very fragrant. A fine Rose. 85c each.

Madam Plantier—A pure white, double June Rose. Very hardy and a continuous bloomer. 85c each.

Snow Queen—Most Perfect White Rose

Snow Queen (Formerly Frau Karl Druschki)—Flowers are immense and produced with great freedom. The color is a marvelous white, vigorous and hardy. A great beauty. \$1.00 each.

Gruss an Teplitz—Scarlet, shading to velvety crimson, very fragrant; a free grower and most profuse bloomer. Blossoms the entire summer. Handsome foliage. Especially valuable for a garden rose. We can recommend it as one of the choicest roses. \$1.00 each.

RICHMOND—A new strong-growing Rose that blooms almost continuously. It is brilliant crimson-scarlet in color and very beautiful in bud form. It is not very double, but on account of its brilliant color, strong growth, and free-flowering habit it is greatly in demand as a cut-flower. \$1.00 each.

Killarney—Queen of the Irish Roses

Killarney—In color it is especially beautiful, being an exquisite shade of deep sea-shell pink. The buds and flowers are of enormous size, the petals being frequently two and one-half inches deep. Blooms profusely throughout the season. \$1.00 each.

Baby Rambler—Bush, not Climbing. Flowers are large, well formed, crimson in color, and borne in clusters of 20 to 40 flowers at one time. Blooms profusely from June until frost. Very desirable for summer bedding and, when planted as a hedge, is an object of beauty. \$1.00 each.

Paul Neyron—This magnificent Rose is by far the largest in cultivation; very double; of a beautiful deep rose-color and delightfully fragrant; borne upon vigorous upright shoots in great abundance throughout the entire season. 75c each.

CLIMBING ROSES

Climbing
American
Beauty

Climbing American Beauty—A beautiful Rose—One plant will produce twenty times as many blooms as the old American Beauty. Over nine hundred blossoms and buds have been counted on one four-year-old bush. The Roses grow on single stems and measure three to four inches in diameter. It has proved perfectly hardy, and the foliage is green and beautiful until the snow falls. It is a worthy ornament to any garden, and its beauty and fragrance will prove a lasting pleasure. If you are a lover of Roses do not fail to plant it. 85c each.

Crimson Rambler—A vigorous and rapid grower, often growing 8 to 15 feet the first season. Charming variety for covering trellises or buildings. If grown on a wire fence as a hedge it will attract immediate attention. It produces clusters of handsome Crimson Roses. 85c each.

Dorothy Perkins—Clear shell-pink, with flowers borne in clusters; full and double, with crinkled petals. The foliage stays on until winter. This is without question one of the very finest of all climbing Roses. 85c each.

Excelsa or Red Dorothy Perkins—The handsomest of all climbers. Double scarlet flowers in large trusses. Extremely vigorous and hardy. 85c each.

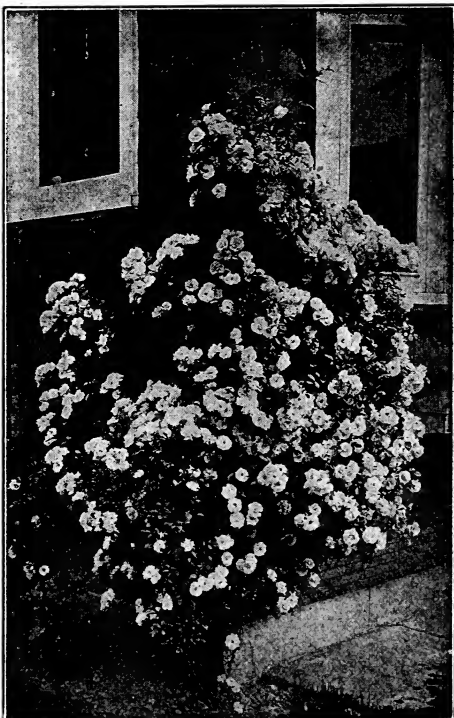

Pink Rambler—Resembles Crimson Rambler in every respect, but color. 85c each.

Baltimore Belle—Very double blush white, in large clusters, completely enveloping the whole plant with bloom. Price, 85c each.

Prairie Queen—An old standard variety, and one that will always be popular. No collection of hardy climbing roses is complete without it. Bright rosy red, large, compact and globular flower. Price, 85c each.

White Rambler—Similar to Crimson Rambler, only the color is pure white. 85c each.

Yellow Rambler—Light canary shade; clusters smaller, individual flowers larger than Crimson Rambler. 85c each.

Thousand Beauties—A superb Rose. Blooms profusely from early June until August, the flowers appearing in immense clusters of large size, and double. The colors vary from a soft rose through the shades of carmine, white, yellow and other delicate tints. It is a strong grower and its magnificent foliage is of itself a valuable feature. 85 each.

WOODLAWN NURSERIES

PLANTS AND BULBS

Yellow Colosse—Decorative Dahlia

Delice—One of the best; soft rose pink.

Jack Rose—Great favorite, rich, old rose color.

Jeanne Charmet—Very beautiful Dahlia, Lilac pink.

Lyndhurst—Bright red. Early. Continuous bloomer.

Queen Wilhelmina—The best Pure white.

Yellow Colosse—One of the best of decorative class. 25c each; 6 (one of each) for \$1.25.

J. H. Jackson—One of the finest Cactus Dahlia

Countess of Lonsdale—Rich, salmon pink.

Golden Gate—One of the best yellow.

J. H. Jackson—Deep velvety blackish-maroon.

Kriemhilde—Ivory white. Queen of Cactus.

Earl of Pembroke—Very fine. Plum purple.

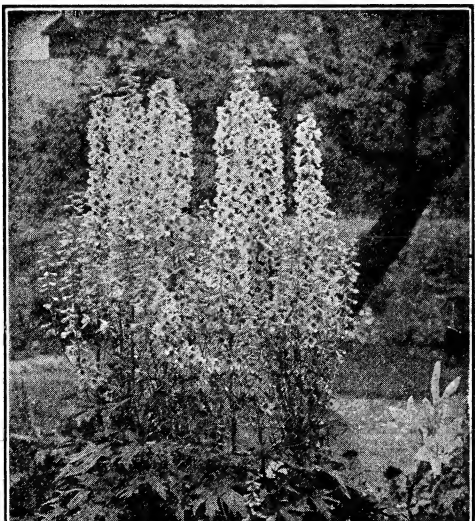

Strahlen Krone—Free bloomer. Brilliant cardinal. 25c each; 6 (one of each) for \$1.25.

Golden Glow or Summer Chrysanthemum

See inside of back cover.

Golden Glow (E)—Large showy plant, blooms from early summer until frost. Flowers 3½ inches in diameter, double, deep golden yellow color, resembling yellow Chrysanthemums. 20c each; 2 for 35c; 6 for \$1.00.

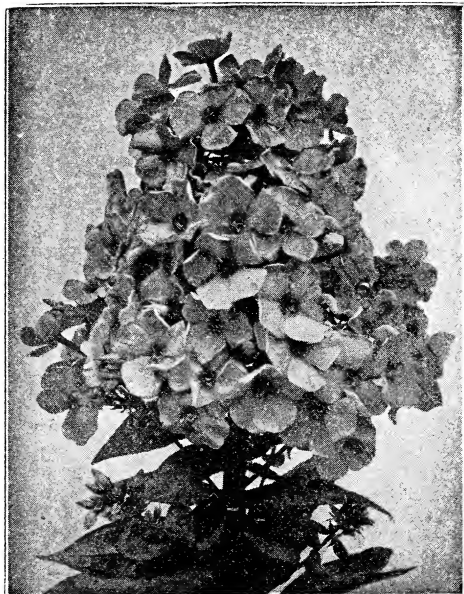

Delphinium or Larkspur

See inside of back cover.

Delphinium (Larkspur)—The flowers are of a beautiful deep blue. Their long showy spikes of flowers persist from June until frost and furnish the most satisfactory blue to any color scheme. 30c each; 6 for \$1.50.

ALLEN L. WOOD, Rochester, N. Y.

Phlox, Fraulein G. Von Lassburg, (Pure White)

La Vague—A beautiful shade of violet.

Champs Elysee—Bright red. A great favorite.

Pantheon—Peerless pink. Extra large.

Caran d'Ache—Variegated with old rose shadings.

R. P. Struthers—Rosy carmine, with dark red eyes.

Fraulein G. Von Lassburg—Pure white. Very large.

Phlox—Strong field-grown. 25c each; 6 (one of each) for \$1.25.

Japan Iris

Iris, Japan—The flowers of the Japan Iris are of the richest colors, ranging from white to purple, with delicate markings and veinings. Some of the flowers are eight inches in diameter and the most delicate and beautiful combinations of colors imaginable. 25c each; 6 for \$1.25.

Lily of the Valley

Lily of the Valley—Will thrive and throw up its beautiful fragrant, white bell, in any kind of soil. 15 each; \$1.00 per 10; \$6.00 per 100.

Shasta Daisy—A very hardy perennial, blooming better and more abundantly each season, and continuing to bloom for several months. The pure white flowers are from two and one-half to four inches in diameter, and are borne singly on long, stiff, wiry stems. The blooms, when out, remain perfectly fresh, and in good condition for two weeks. Strong field-grown plants. 25c each; 6 for \$1.25.

Campanula or Bell Flower

See inside of back cover.

Campanula or Bell Flower—Are among the most beautiful perennials in cultivation. They possess that light transparent grace that is so attractive in a flower. Very free of bloom throughout a long season, and adapted to any garden soil. Blue and White. 30c each; 6 for \$1.50.

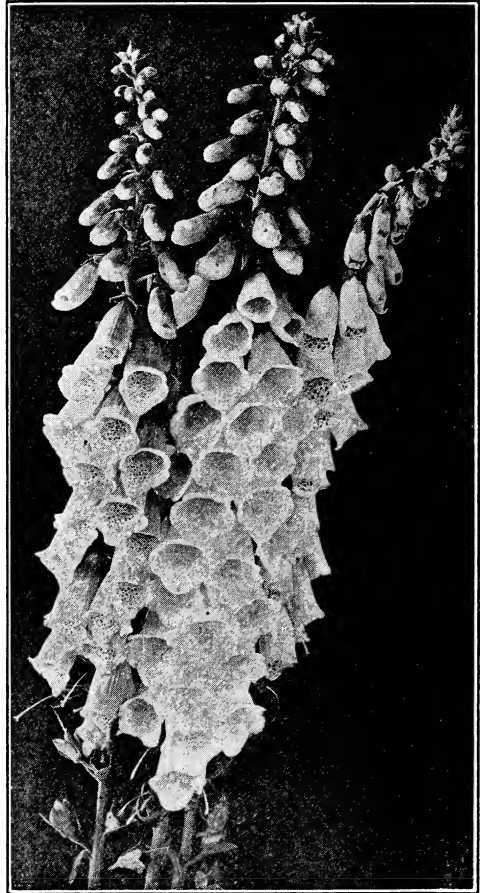

Gaillardia

HOLLYHOCKS (Double)

Hollyhocks, King of the Garden—Most ornamental and handsome garden flowers, with their tall spikes dotted with large, double flowers of the most lovely color. Can be used with great effect as borders or against buildings or fences. Colors, Maroon, Pink, Purple, Red, White and Yellow. 30c each; 6 for \$1.50.

Mallow Marvels (Hibiscus)—Flowers are immense in size. White, with a velvety crimson in the center of each flower; will produce several hundred flowers in a season. 35c each; 6 for \$1.80.

Yucca (Spanish Bayonet)—The stem is covered with large, creamy-white, bell-shaped flowers on laterals. Very desirable for rockwork, and effective in clumps on the lawn. 35c each; 6 for \$1.80.

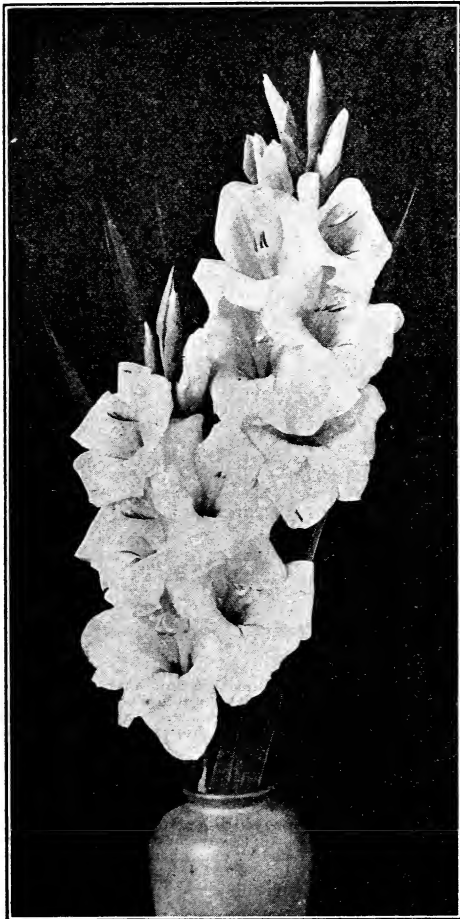

Digitalis or Foxglove

See inside of back cover.

Digitalis or Foxglove—One of the most widely known and popular plants. The racemes are often two feet in length, containing scores of prettily-spotted thimble-shaped flowers. Very desirable for use in borders or as a background for lower growing plants. 30c each; 6 for \$1.50.

Gaillardia—One of the most gorgeous of all flowering plants. Flowers measure 3 inches in diameter, on stems of 2 feet. A hard center of deep maroon is thickly bordered with petals of orange and yellow, ringed by circles of crimson red and maroon. Bloom from June until frost. 30c each; 6 for \$1.25.

ALLEN L. WOOD, Rochester, N. Y.

Chicago White

Chicago White—Large flower, pure white with faint lavender streak in the lower petals; very early bloomer. 15c each; 2 for 25c; 10 for \$1.00.

Niagara—Of American character, but somewhat larger; rich cream color deepening to canary yellow on lower petals. A faint carmine blush at tips of petals and streak at throat, with purple stamens and carmine stigmas, make it a combination of exquisite beauty and attractiveness. 15c each; 2 for 25c; 10 for \$1.00.

R. R. No. 3, Pottstown, Pa., Ap. 17, 1919.

Gentlemen: Received stock in good condition, the finest stock I have ever received from a nursery and the packing department deserves a lot of credit for the manner in which they pack the stock.

Yours respectfully,

JOS. A. BROWN.

We have no agents selling our stock, therefore we save you agents' commissions. Send cash with order. "Wood Quality" stock is the best.

Choice Varieties of Gladioli, 10c each; 3 for 25c; 10 for 75c; 100 for \$6.00.

America—Beautiful soft, flesh pink faintly tinged with lavender; much like the famous Cattleya Orchids. A magnificent cut-flower; it took the flower loving world by storm when first introduced and still holds first place among all Gladioli.

Cracker-Jack—A rich maroon. A fine strong growing variety and a good bloomer.

Independence—A brilliant rose pink, with richly marked throat, a long strong spike of wax-like flowers. One of the best.

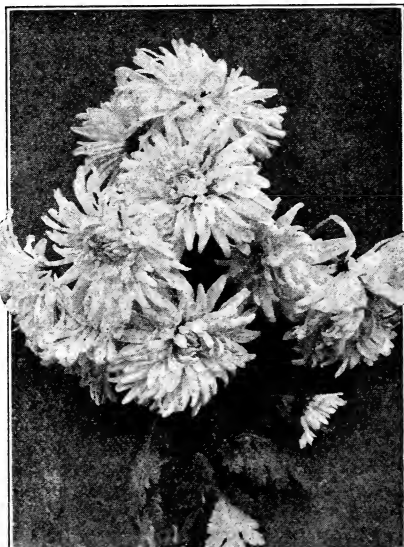

Princes—(Known as the Thousand Dollar Gladiolus.) Amaryllis-like flowers of a rich dark scarlet marked with white on the lower petals. The foliage of a beautiful dark green and very attractive. See inside of back cover.

Victory—Flowers medium size of delicate sulphur yellow, with darker shade in lower petals. Best Yellow. See inside of back cover.

Gladioli Collections

In order to give our customers an opportunity to make their own collection of choice varieties of Gladioli they may select:

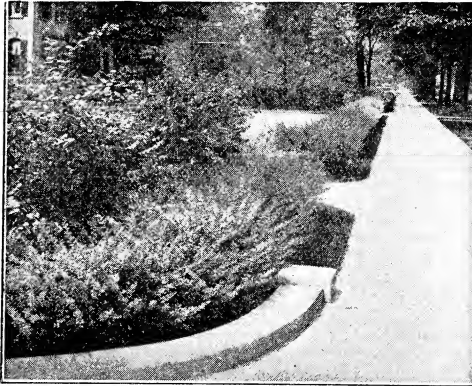

- 5 (one of each variety) for 40c. By mail 48c.
- 10 (two of each variety) for 75c. By mail 87c.
- 25 (five of each variety) for \$1.60. By mail \$1.80.

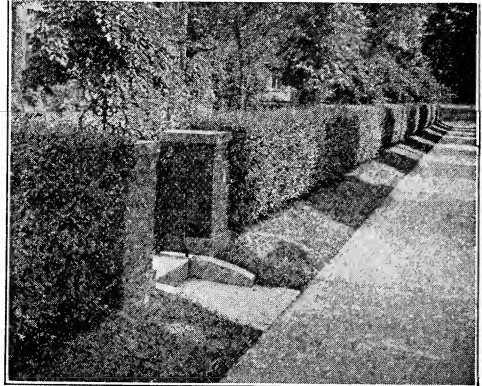

Pompon Chrysanthemums

Pompon Chrysanthemums are entirely hardy and live through the winter without protection. Whether planted in the garden or against walls, or as a border they are wonderfully effective, producing a wealth of bloom even after all the other flowers are destroyed by frost. We have them in the following colors: Red, White and Yellow. 25c each; 3 (one of each color) 65c; 10 for \$2.00.

WOODLAWN NURSERIES

Barberry Thunbergii Hedge

California Privet Hedge

HEDGE PLANTS

Barberry Thunbergii—Dwarf growing; foliage, rich bright green which takes on a brilliant red color in autumn. Red berries also appear at that time. It is perfectly hardy, easily transplanted, and free from insects. Very ornamental and as attractive in winter as in summer.

	Each	Ten	Hundred
15 to 18 in.	25c	\$2.00	\$12.00
18 to 24 in.	30c	2.50	14.00
2 to 3 ft.	35c	3.00	16.00

California Privet—A rapid and vigorous grower. It has handsome glossy, oval-shaped leaves which remain on well into the winter. Very popular for ornamental hedges and trimmed specimens.

	Each	Ten	Hundred
15 to 18 in.	10c	\$0.75	\$4.00
18 to 24 in.	15c	1.00	5.00
2 to 3 ft.	20c	1.25	6.00

EVERGREENS

American Arbor Vitae—Much used for hedges, screens, singly on lawns or in tubs for porches. A handsome little tree, and if allowed to grow naturally will be tall and pyramid-shaped. Can be trimmed and kept in any form and height. In summer the foliage is bright green above, yellowish beneath.

	Each	Ten	Hundred
18 to 24 in.	60c	\$5.00	\$40.00
2 to 3 ft.	75c	6.00	50.00

Irish Juniper—A distinct and beautiful variety, of erect, dense, conical outline, resembling a pillar of green; very desirable. \$1.00 each.

Norway Spruce—Pyramidal in form, of rapid growth, and extremely hardy. Makes a beautiful ornament for the lawn when planted singly and when set out as a hedge or wind break cannot be beaten. Norway Spruce will grow as high as 25 feet.

	Each	Ten	Hundred
18 to 24 in.	60c	\$5.00	\$40.00
2 to 3 ft.	75c	6.00	50.00

Mahonia (Holly-Leaved)—A native Evergreen species, with waxy shining, prickly leaves and showy, bright yellow flowers in May succeeded by bluish berries. Its handsome deep green, in glossy foliage and neat habit render it very popular for decorative planting. \$1.00 each.

TREES AND PLANTS BY PARCEL POST

Only smallish trees can be sent by parcel post.

Do Not Order Kinds Not Named in the following List.

On orders for fruit trees by parcel post, we reserve the right to substitute other good varieties of a like season if we are sold out of a variety called for.

Apples, Dwarf Apples, Pears, Dwarf Pears, Quinces and Sour Cherry Trees, 60c each.

Peach Trees, Dr. Worcester, \$1.10 each.

Peach Trees, Woodlawn Golden, Hale and Elberta, 75c each.

Peach Trees. Other Varieties, 65c each.

Asparagus (2 yr. roots)—Add 5c per 10; 15c per 50; 25c per 100.

Currants, Gooseberries, Grape Vines and Rhubarb—Add 5c each; 25c per 10.

Strawberry Plants—Add 5c per 12; 25c per 100.

Raspberries and Blackberries—Add 10c per 10; 20c per 25.

Bechtel's Double Flowering Crab—2 ft., add 10c each.

Flowering Shrubs—Althea, Barberry, Butterfly Bush, Calycanthus, Cornus, Deutzia, Honeysuckle, Hydrangea, Kerria, Lilac, Japan Quince, Snowball, Snowberry, Spirea, Syringa, Weigela, add 8c each.

Ornamental Vines—Clematis, Ampelopsis and American Ivy, Honeysuckle, Matrimony, Wistaria, add 5c each.

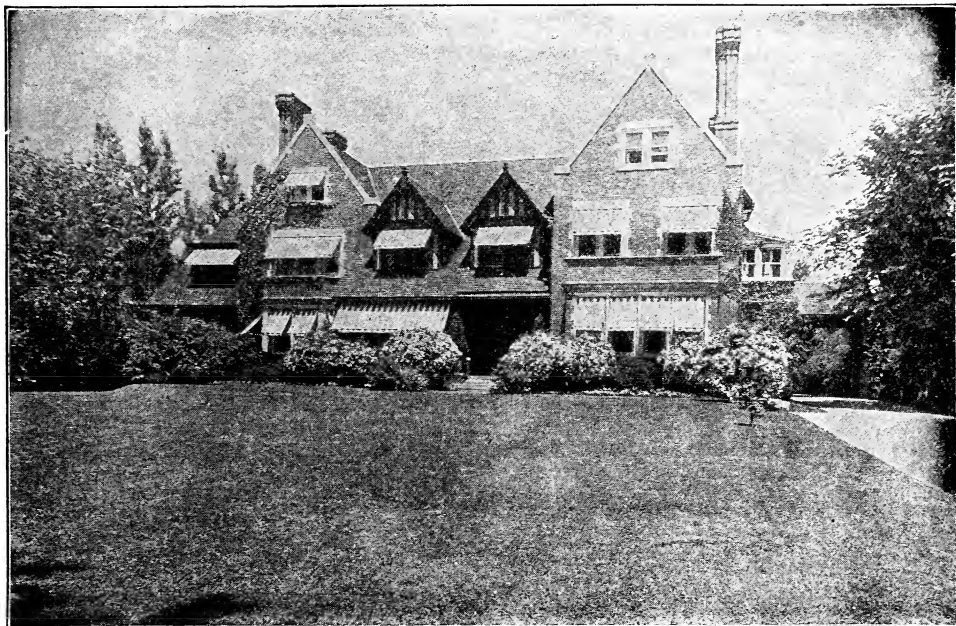

Plants and Bulbs—Paeonia, Phlox, Campanula, Delphinium, Foxglove, Chrysanthemum, Dahlia, Shasta Daisy, Gaillardia, Hollyhock, Iris, add 5c each; 25c per 6.

Gladiolias and Lily of the Valley—Add 2 each; 8c per 10.

Roses—We can send by Parcel Post strong roses cut back ready for planting. Add 5c each; 25c per 6.

California Privet and Barberry Thunbergii—Add 5c each; 20c per 10.

Where extra is charged for stock by parcel post, the additional charge is to cover both postage expense and extra labor. Do not ask for the refunding of the little that possibly may not be used for postage in some instances. Sometimes the actual postage is more, sometimes less.

Woodlawn Grass Seed Mixture

We take special pride in our Lawn Seed Mixtures. They are composed of the very best grades of Blue Grass, Red Top, White Clover and other desirable varieties; no cheap or light seed of any description is used.

There is a big opportunity for adulteration in lawn grass seed. Mixtures are very often composed of light seed of cheap grades, chaff that won't grow, and practically no white clover. We advise our customers, who wish a perfect lawn, to purchase seed only from reliable houses. One pound will seed about 300 square feet. 1 lb. 40c prepaid; 5 lbs. \$1.75; 20 lbs. 1 bushel, \$6.00 not prepaid. Bags extra—2 bu. bags 75c each; 5 lb. bags 15c each.

Introductory

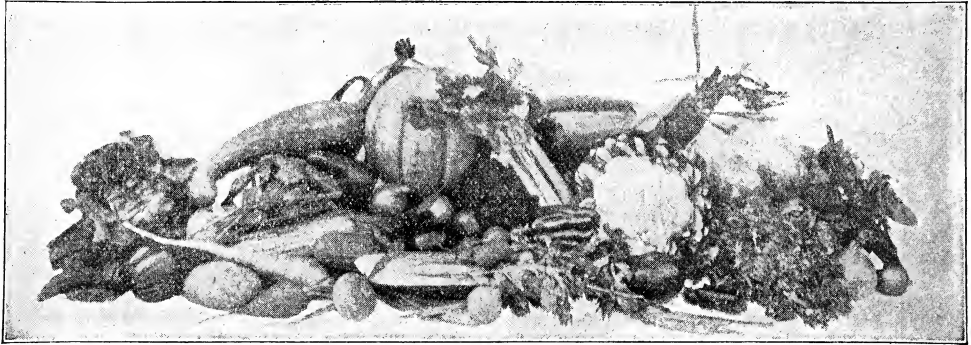

In past years numerous inquiries for seeds have accompanied the tree orders of my customers. Frequently they write, "Why don't you complete our order by furnishing seeds as well as plants and trees?" My excuse for not complying with these requests has invariably been the increased demand on my time of a rapidly tree growing business, also I realize the fact that to furnish Seeds of a high standard such as I would like my friends to have, is a business in itself.

How to shoulder and care successfully for both lines was a puzzle to me, until last summer when spending a pleasant afternoon with an old Rochester Seedsman and incidentally stating my dilemma, he suggested that he be allowed to help me by supplying flower and vegetable seeds of the same high standard and quality his own customers are receiving. The bargain was made there and then and I am pleased to announce the addition of sixteen pages of seeds to my 1920 catalog.

The seeds listed are grown especially for me by my seedsman friend, who has had years of experience both in flower and vegetable seeds, and are the best varieties for the Home Garden. They can be grown to perfection with but ordinary care, and with successive plantings will keep the table well supplied with fresh vegetables, and the garden and homes bright with flowers the entire season.

ALLEN L. WOOD.

WOODLAWN NURSERIES

BEANS

Postage on Seeds prepaid on packet, oz. and lbs. except where otherwise noted.

CULTURE. A light loam is best adapted to a perfect bean crop. Plant as soon as the ground has become thoroughly warm in rows from two feet for hand cultivation to three feet apart for horse cultivation. Cultivate thoroughly and often, keeping a mulch of loose soil at all times. When beans are in bloom cultivate shallow, as deep cultivation at this time causes many blossoms to drop, decreasing the yield. *One pound for fifty feet of rows.*

All Beans, except as quoted, packet 10cts., ½ lb. 25 cts., lb. 40 cts., two lbs. 75 cts.

YELLOW-PODDED VARIETIES

Refuge Wax—One of the best Beans for the home garden or market. The pods are long, round and wax-like; perfectly stringless, tender and of the finest quality. In color, they are a rich creamy white. This variety is classed among the early sorts, as it comes into bearing about 40 days after planting and continues to bear for several weeks. **See colored picture on inside of front cover.**

Rustless Golden Wax—Its fine quality, hardness, productiveness, and freedom from rust make it a general favorite.

GREEN-PODDED VARIETIES

Improved Stringless Green-Pod—Too much cannot be said in favor of this most excellent variety. The pods are light green, absolutely stringless and very tender.

Bountiful—Of superior quality, early and productive. One great feature is that while it bears early, its pods remain in an edible condition for a long time.

POLE BEANS

Old Homestead (Kentucky Wonder)—Ten days earlier than any other green-podded pole bean. Pods 8 to 10 inches long, entirely stringless.

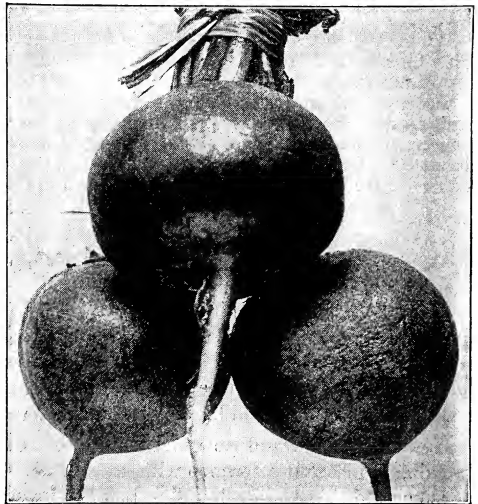

BUSH LIMA BEANS

Fordhook Bush Lima—Without doubt the best Bush Lima. Earlier than the Pole Lima by ten days. Excellent quality. Packet 10c; ½ lb. 35c; 1 lb. 65c; 2 lbs. \$1.25.

BEETS

Sow seed about one inch deep in drills 15 inches apart; when the plants are 3 to 4 inches high, thin them to stand about 6 inches apart in a row. One ounce of seed will sow 50 feet of drill; 5 pounds per acre.

Extra-early Crosby's Egyptian—An extra-early strain of the old favorite, Crosby's Egyptian; globe shaped, and of better quality than the parent. Packet 5c; 1 oz. 15c; ¼ lb. 50c; 1 lb. \$1.65.

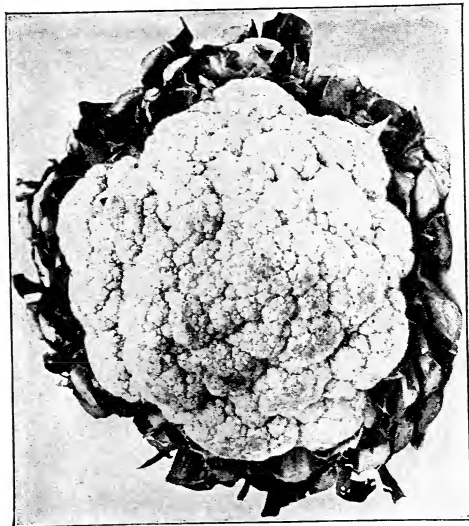

Detroit Dark Red

Detroit Dark Red—One of the best turnip-shaped Beets for the market and home garden and winter storage. Flesh rich red, fine grained, without a hard core; uniformly smooth and of medium size. Packet 5c; 1 oz. 15c; ¼ lb. 50c; 1 lb. \$1.35.

CAULIFLOWER

Seed may be sown as directed for cabbage. The soil in which the plants are grown should be heavily fertilized; supply water freely in dry weather when the heads begin to form. One ounce of seed will produce about 3,000 plants. Set plants 24 to 30 inches apart.

Early Snowball

Early Snowball—A dwarf variety producing magnificent big heads of the finest quality. Desirable for both the garden and market. Packet 10c; $\frac{1}{4}$ oz. \$1.25, $\frac{1}{2}$ oz. \$2.25, oz. \$4.

CABBAGE

More money can be lost by a gardener who plants poor Cabbage seed than with almost any other vegetable that he may grow. The seed we offer is absolutely new stock from the best professional growers.

Early Cabbage should be started under glass in March; late varieties in the open ground in May.

Allow a space of about 18 inches between plants, with not less than 24 inches between rows. One ounce of seed will produce about 3,000 plants; about 4 ounces to the acre.

All Seasons. Unsurpassed for medium early or main crop variety; heads large, nearly round, extremely solid and of fine quality. Packet 10c; $\frac{1}{2}$ oz. 35c; 1 oz. 60c; $\frac{1}{4}$ lb. \$1.60.

Improved Danish Ballhead. A winter variety of the very greatest popularity. Heads solid, with few outer leaves, and will weigh 25 per cent more than any other Cabbage of equal size. Our strain of this variety is unsurpassed. Packet 10c; $\frac{1}{2}$ oz. 40c; 1 oz. 70c; $\frac{1}{2}$ lb. \$1.75. See colored picture on inside of front cover.

Copenhagen Market. For home gardens and market; early, solid head, short stems. Packet 10c; $\frac{1}{2}$ oz. 50c; 1 oz. 85c; $\frac{1}{2}$ lb. \$2.25.

Mammoth Rock Red—The old fashioned red Cabbage; heads large, round and solid. Packet 10c; $\frac{1}{2}$ oz. 35c; 1 oz. 60c; $\frac{1}{2}$ lb. \$1.60.

Improved American Savoy—Leaves curled and crinkled; dark green in color. The best of all the Savoy Cabbages. Packet 10c; $\frac{1}{2}$ oz. 35c; 1 oz. 60c; $\frac{1}{2}$ lb. \$1.60.

CELERY

Celery seed is very slow in germinating; should be sown under glass in March for the first crop, and about the middle of April in the open ground for later crop. Cover not more than a quarter of an inch, keep the bed moist and partially shaded. When plants are large enough to handle, transplant to 4 inches apart; about the middle of June set in permanent rows 3 to 4 feet apart and 6 inches in the rows. One ounce of seed will produce about 4,000 plants. **French Seed**, packet 10 cts., $\frac{1}{2}$ oz. 85 cts; oz. \$1.50, $\frac{1}{4}$ lb. \$5; lb. \$18.

Paris Golden Dwarf Self-blanching—A dwarf variety of rapid growth; is ready for use earlier than other sorts and also desirable for late planting. Rich golden color, crisp, with solid brittle hearts. One of the very best varieties for market or home garden.

Winter Queen—Robust and stocky, requires little labor to blanch clear white. Stalks solid and crisp, with little foliage and therefore slight waste. A splendid keeping variety.

CHINESE, or PE-TSAI

A new Celery-Cabbage recently introduced from the Orient. Resembles Cos Lettuce in habit of growth, but with leaves like a cabbage. May be served as cole slaw, as a salad, or cooked like cabbage. Sow seed from July to September, in rows, $\frac{1}{2}$ inch deep; thin plants to about 10 inches apart; blanch by earthing and tying with burlap. Six pounds of seed for an acre. Packet 10 cts.; oz. 30 cts.; $\frac{1}{4}$ lb. \$1; lb. \$3.50.

CARROTS

Sow Carrot seed in early April for the first crop, and continue the sowing till June for later crops. Sow in drills 14 inches apart, cover seed about $\frac{1}{2}$ inch, and when the plants are up thin to 4 inches apart in a row. An ounce of seed will sow about 100 feet of drill, three or four pounds to an acre. Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 40c; 1 lb. \$1.25.

Chantenay Stump-rooted—Six to seven inches long, thicker than other sorts; flesh orange red, free from core. One of the best for market or home garden. See colored picture on inside of front cover.

Danvers Half-Long—Semi-stump-rooted, dark orange; smooth; has yielded 25 to 30 tons per acre.

CUCUMBER

Sow seed in warm, moist, light soil, in hills 4 feet apart each way; use 15 to 20 seeds to a hill, thinning to a half dozen plants when strong enough to resist the attacks of Cucumber beetle. One ounce will plant about 100 hills; two pounds to the acre. **Packet 5c; 1 oz. 20c; ¼ lb. 50c; 1 lb. \$1.75.**

Improved Early White Spine—Valuable for forcing or outdoor planting. Early, good sized, smooth and straight. Deep green color, seldom turning yellow.

Improved Long Green—Extensively used for pickling. Fruits dark green, uniform in shape and size, frequently 12 inches long. Extremely free bearing.

Japanese Climbing—May be grown on a trellis as a screen. Fruits large, 10 to 12 inches long; excellent when sliced in salads or as pickles.

FRENCH ENDIVE

French Endive—Sow in spring ½ inch deep in rows 18 inches apart; thin to 6 inches apart. Yields long, parsnip-like roots by fall, when they are dug and shorn of leaves to within 1¼ inches of the neck. The roots are then replanted 1½ to 2 inches apart in trenches or in the cellar, and covered with 8 inches of fine soil. Here they produce an abundance of blanched leaves which make a splendid winter salad; they can also be cooked as greens, after the fashion of beets or dandelions. **Packet 5 cts; ½ oz. 25 cts; oz. 40 cts; ¼ lb. \$1.25.**

EGGPLANT

Start seed under glass, and bring the plants to a good size as rapidly as possible; transplant into rich ground as soon as the weather is warm, setting them about 3 feet apart each way. One ounce of seed produces about 2,000 plants. **Packet 10c; ½ oz. 30c; 1 oz. 50c; ¼ lb. \$1.75.**

Improved New York Purple—One of the best for garden culture. Fruits, large, round or slightly oval, dark purple.

SPINACH

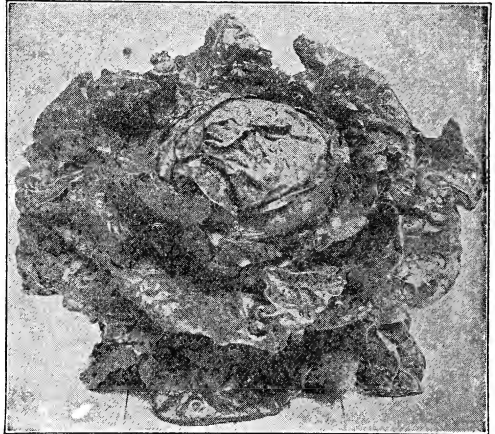

For early spring sow seed in August or September, protecting the plant during the winter. For summer use sow in early spring; thin to 3 inches apart. For succession sow every two weeks. One ounce will sow 100 feet of drill, about 10 pounds to the acre. **Packet 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 75c.**

Long Season—A warm weather variety; compact, with short stems; leaves thick, well crinkled, dark green.

Bloomsdale Savoy-leaved—Especially adapted for fall sowing; leaves wrinkled and curled.

LETTUCE

For extra-early plants sow the seed in February or March in hotbeds; transplant to open ground in April. For later crops sow seed in the garden as soon as the ground can be worked; a succession can be made by sowing at intervals of two weeks. One ounce of seed will sow 120 feet of drill. **Packet 5c; 1 oz. 15c; ¼ lb. 45c; 1 lb. \$1.60.**

Big Boston

Big Boston—The most valuable Lettuce for the market gardener and home garden. Splendid, large, solid heads blanching to a creamy yellow; leaves crisp, tender, few waste outside leaves.

Crisp as Ice—Large, round, solid heads; outer leaves green, heart rich creamy yellow. A perfect home-garden variety. See colored picture on inside of front cover.

Prize Head—A loose-heading variety; curly leaves, edged brown. One of the best varieties for the home garden.

Black-seeded Simpson—A good variety for growing under glass or in the open ground. Heads of good size; outer leaves green, golden yellow heart.

Cos, or Romaine—Leaves long and conical, requiring to be tied up; the center soon forms a solid head, turning to snowy whiteness.

ENDIVE

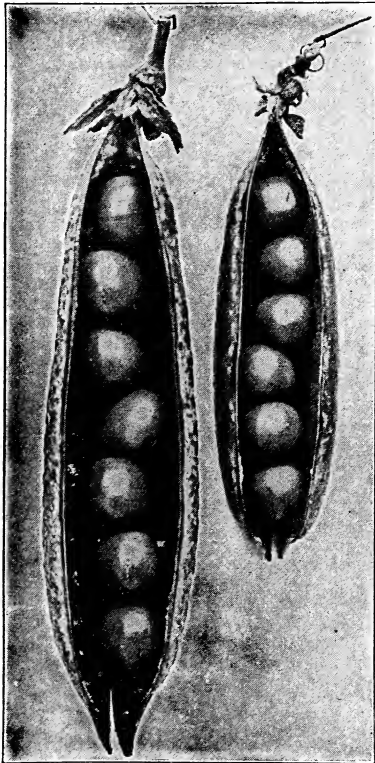

Sow in drills a foot apart; when the plants are 2 to 3 inches high, thin to about 10 inches. When full grown the leaves should be tied together, thus allowing the heart to blanch. **Packet 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.**

Moss Curled—Foliage dark green, finely curled.

Broad-leaved Batavian (Escarolle)—Leaves thick, either plain or slightly wrinkled.

PEAS

Sow early in spring, and follow every two or three weeks until late July. Use early, medium, and late varieties, rather than many successive sowings of one sort. One pound will sow 40 feet of drill.

Thomas Laxton

Thomas Laxton—Extra early, strongly resembling Gradus. Large blunt pods, well filled with quality peas. Packet 10c; $\frac{1}{2}$ lb. 35c; lb. 60c; 2 lbs. 90c.

Champion of England—A late variety; pods good size, filled with green wrinkled peas. Vines 5 feet high. Packet 10c; $\frac{1}{2}$ lb. 35c; lb. 65c; 2 lbs. \$1.00.

Nott's Excelsior—This well-known and valuable sort begins to bear early and continues to bear for a long time. Pods good sized and well filled. Plants about 16 inches tall. Packet 10c; $\frac{1}{2}$ lb. 35c; lb. 60c; 2 lbs. 90c.

Extra-early Premium Gem—An old favorite, very productive, pods large and well filled. Vines 12 to 15 inches high. Packet 10c; $\frac{1}{2}$ lb. 35c; lb. 60c; 2 lbs. 90c.

Telephone—The standard main crop variety; heavy bearer of large pods, containing 6 to 7 peas, closely packed, pale green, and of delicious flavor. Vines 4 feet in height. Packet 10c; $\frac{1}{2}$ lb. 35c; lb. 60c; 2 lbs. 90c.

PARSLEY

Sow in drills a foot apart, thinning the plants to 3 or 4 inches. Seed germinates slowly. One ounce of seed to 100 feet of drill. Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.25.

Extra Triple-curved—Pale green, extra-curved, and crimped; dwarf and compact.

PARSNIP

Seed germinates slowly; may be sown very early in the spring, in drills about 18 inches apart and a half an inch deep; thin to 8 inches in the row. One ounce of the seed will sow 200 feet of drill, 5 pounds to the acre.

Long Hollow Crown—A standard variety for home garden and market purposes. Long, smooth, hardy, keeping through the winter with little protection. Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 30c; 1 lb. \$1.00.

PEPPER

Better plants are obtained when the seed is sown in a hotbed or under glass. Plants may be set in the open ground after the weather is warm, spacing about 2 x 3 feet. One ounce of seed will produce about 1,500 plants. Packet 10c; $\frac{1}{2}$ oz. 40c; 1 oz. 75c; $\frac{1}{4}$ lb. \$2.50.

Chinese Giant—Largest of all, some specimens averaging 10 to 12 inches in circumference. Flesh thick, sweet, and milder than most others.

Large Bell, or Bull Nose—Quite early, nearly as large as Chinese Giant. Fruit thick, mildly flavored. See colored picture on inside of front cover.

Long Red Cayenne—Late; fruit small, cone shaped, bright scarlet; hot.

PUMPKIN

The usual way to grow Pumpkins is by planting the seed in the corn field, dropping two or three seeds in every third or fourth hill. One ounce will plant a dozen hills, two to three pounds for an acre.

Sugar, or Pie—10 to 12 inches in diameter, slightly flattened at either end; skin orange, flesh yellow. Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Connecticut Field—Extra large, orange color. Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.00.

SQUASH

Packet 5c; 1 oz. 20c; $\frac{1}{4}$ lb. 60c; 1 lb. \$2.00.

Mammoth Bush Summer Crookneck—Extra large, 15 to 20 inches long, rich golden yellow.

Improved Hubbard—Larger than the old Hubbard; outer skin deep green, flesh golden yellow, finely grained. Extra heavy, and if stored in cool place may be kept till spring. See colored picture on inside of front cover.

WOODLAWN NURSERIES

SWEET CORN

Plant about the first of May, and follow with plantings at about three-week intervals to extend the season. Drop about six kernels to the hill, which may be made to four feet apart each way. One pound will plant 100 hills; sixteen to twenty pounds an acre in hills. **Packet 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 75c.**

Black Mexican—Splendid variety for the home garden. Unusually sweet and prolific. Kernels mixed, black, blue, and white, but turn white when cooked.

Stowell's Evergreen—The standard main crop Sweet Corn for the home garden or for the market. Ears large size with deep kernels, remaining fresh and edible longer than any other variety. See colored picture on inside of front cover.

Earley Golden Bantam—The most famous of the early sweet corns. Stalks from 3 to 4 feet high, usually bearing two ears, which are filled to the tip with creamy yellow, sweet kernels.

Golden Nugget—(Second Early). Similar to Golden Bantam, planted at the same time produces its crop about a week later. Ears larger and more prolific but of the same quality and rich creamy yellow color. This sort has been on the market for many years; some gardeners think it was a forerunner of Golden Bantam. Certainly it is its equal in every respect, and is unsurpassed as a home-garden corn.

Early Evergreen. Earlier than Stowell's Evergreen and equally good in other respects.

RADISH

Rapid growth is demanded if good bulbs are to be secured. A light sandy soil is best for early Radishes. Sow the seed in February in hotbeds; for later crops sow out of doors in properly prepared soil. Successive sowings may be made every ten days or two weeks. One ounce will sow 100 feet of drill. **Packet 5c; 1 oz. 15c; 1/4 lb. 50c; 1 lb. \$1.75.**

Early Scarlet Globe—Probably more of this variety is grown than of any other Radish. Skin is rich, bright scarlet; flesh white, fine-grained. One of the leaders for market gardeners, but just as valuable for home use. See colored picture on inside of front cover.

Scarlet Turnip White Tip—Medium size, bright scarlet with a distinct white tip, flesh white, matures in about 25 days.

Long Brightest Scarlet—Brilliant scarlet, white flesh; 3 to 4 inches long.

White Icicle—The best of the long white varieties, crisp and brittle. Suitable for growing under glass and in the open garden.

SWISS CHARD

Used extensively as "greens," prepared for the table the same as spinach. Appearance of the foliage similar to Beets. Seeds should be sown in April or May. One ounce of seed will sow about 50 feet of drill. **Packet 5c; 1 oz. 15c; 1/4 lb. 35c; 1 lb. \$1.25.**

Large-ribbed Yellow Brazilian—Foliage quite tall, and is marked with golden yellow veins. May be used for cooking or for garnish.

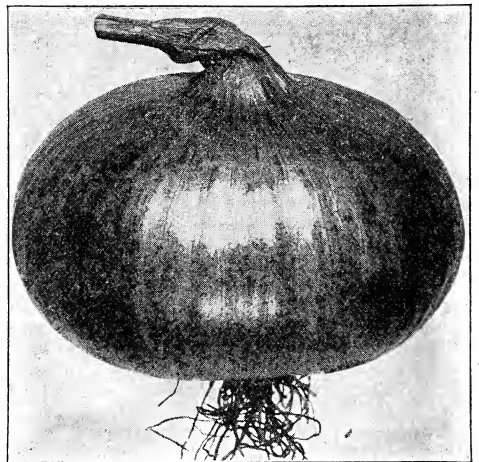

ONIONS

For best development Onions require rich, mellow soil. Sow thinly in shallow drills as soon as possible in the spring; when of fair size, thin to about 4 inches apart. Successive plantings can be made till July. One ounce of seed will sow about 100 feet of drill, 3 pounds to the acre.

Southport White Globe—Clear white skin and flesh; quite mild. A good shipper and a better keeper than many white sorts. **Packet 10c; 1 oz. 40c; 1/4 lb. \$1.25; 1 lb. \$4.50.**

Southport Red Globe—A favorite sort where there is a demand for red varieties; globe shaped, medium large size, with smooth skin and small neck; flesh white. **Packet 10c; 1 oz. 30c; 1/4 lb. 85c; 1 lb. \$3.00.**

Danvers Yellow Globe—Extra-large, thick bulb, slightly flattened at the bottom, full oval top and small neck; skin yellowish brown, flesh clear white. The seed we offer is from selected stock and is a distinctly fine strain. **Packet 10c; 1 oz. 30c; 1/4 lb. 85c; 1 lb. \$3.00.** See colored picture on inside of front cover.

Mammoth Prizetaker

Mammoth Prizetaker—The largest of all Onions, often 15 to 18 inches in circumference. Desirable for fall and early winter; flesh pure white, similar to the Bermudas. **Packet 10c; 1 oz. 30c; 1/4 lb. 85c; 1 lb. \$3.00.**

TOMATO

Sow seed in hotbeds, or in boxes in a warm room; transplant when about 2 inches high into flats or single pots and place in cold frames. Transplant to the open ground about the middle of May to June 15th, setting the plants about 4 feet apart every way. One ounce of seed will produce about 1,000 plants.

John Baer—Among the first earlies; round, smooth, bright scarlet. Desirable for both market use and home garden. **Packet 10c; 1 oz. 40c; ¼ lb. \$1.25; 1 lb. \$4.75.**

Bonney Best—Color intense glowing scarlet; ripens to the stem without crack or black spot. Desirable for market or home use. **Packet 10c; 1 oz. 40c; ¼ lb. \$1.25; 1 lb. \$4.75.**

Improved Stone

Improved Stone—Better than the old Stone because of size, weight and color; fruits perfectly smooth, ripens to the stem and especially desirable for canning purposes. **Packet 10c; oz. 35c; ¼ lb. \$1.15; lb. \$4.00.**

Dwarf Champion—Fruits medium size, smooth, purplish carmine; plants dwarf. **Packet 10c; 1 oz. 35c; ¼ lb. \$1.15; 1 lb. \$4.00.**

Ponderosa—Possibly the largest of all varieties, often weighing three pounds each; solid, meaty, few seeds; reddish purple. **Packet 10c; oz. 50c; ¼ lb. \$1.60; lb. \$6.00.**

THREE LEADING MUSKMELONS

Plant in hills 6 feet apart each way, placing six to eight seeds in a hill; thin to about 3 plants in a hill. When the vines are 12 to 18 inches long, pinch the tips to make them branch. One

ounce will plant 80 hills; about one pound for an acre.

Irondequoit—The finest yellow-fleshed melon on the market. Fruits unusually large, fairly smooth skin, turning yellow when ripe. Flesh rich salmon yellow, sweet and of a most delicious flavor. In our own markets Irondequoit commands and is worth a higher price than any other variety. The seed we offer is our own growing. **Packet 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.50; lb. \$5.00.** See colored picture on inside of front cover.

Emerald Gem—Smooth, emerald green skin; flesh salmon, ripening clear through to the rind. **Packet 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.**

Rocky Ford—Extra early; slightly oval in shape, ribbed and covered with a coarse netting. Valuable shipping variety. **Packet 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.**

TURNIP

For early crops sow seed as soon as the land can be worked. For main crop and winter use sow seed in July and August. Drills are usually made 12 to 14 inches for garden culture; for field culture 24 to 30 inches. For early crops plants should stand 2 to 3 inches apart and for field crops 4 to 5 inches. Do not use fresh manure as a fertilizer. One ounce of seed for 150 feet of drill; two pounds to the acre. **Packet 5c; 1 oz. 15c; ¼ lb. 30c; 1 lb. \$1.00.**

Purple-Top White Globe—Flesh firm, fine grain, sweet and mild. Medium size, globe-shaped, good keeper. Desirable for table, unsurpassed for stock.

Purple-Top Strap-Leaf—Quick grower; valuable for spring planting; flesh and skin white, changing to purple above ground.

RUTABAGA (Swede Turnip)

Used principally for stock feeding. Cultivation is the same as for turnips. **Packet 5c; 1 oz. 20c; ¼ lb. 40c; 1 lb. \$1.40.**

Imperial Purple-Top Yellow—Large; yellow, with purple top; one of the best.

WATERMELON

Cultivation similar to muskmelon; hills should be 6 to 8 feet apart. One ounce will plant 25 to 30 hills, one pound to the acre. **Packet 5c; oz. 15c; ¼ lb. 35c; lb. \$1.25.**

Cole's Early—Best for home garden and near-by market, as it is too tender for shipping. Flesh deep red; ripens clear to the rind.

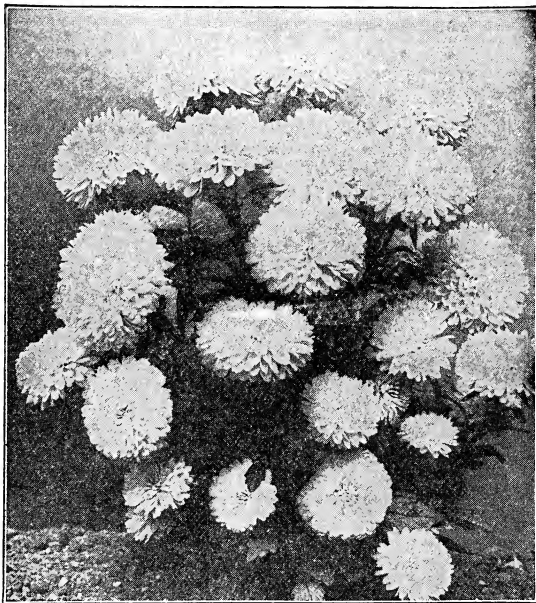

Kleckley Sweets—One of the finest Watermelons, 18 to 20 inches through; skin dark green, flesh bright scarlet.

Citron (For Preserves)—Small round fruits, white flesh.

Flower Seed Department

ASTERS

All our Aster Seed is grown by Mr. Chas. H. Vick, formerly of the old James Vick Seed Company. We offer only his very best varieties. Our seed is absolutely fresh 1919 stock, strictly true to name and of the very highest quality. Postage on Seeds prepaid on packet, oz and lbs. except where otherwise noted.

Imperial Aster

Imperial—A class of Asters blooming about midseason. Their delicacy of color, profusion of bloom, and the extreme doubleness of the flowers make them especially valuable for cutting. **Packet 15c; 2 for 25c.**

Daybreak—The first of the class; color the most delicate pink imaginable. **Packet 15c; 2 for 25c.**

Purity—Especially useful for bedding. Flowers full, double, and white as snow. **Packet 15c; 2 for 25c.**

Rose—Light rose, with a silvery sheen. Plants are free bloomers. **Packet 15c; 2 for 25c.**

Blue—A distinct novelty; the flowers are a pronounced bright blue, and are fully as double as others of the class. **Packet 15c, 2 for 25c.**

Lavender—An extremely dainty tint of lavender which becomes quite pronounced as the blooms mature. **Packet 15c; 2 for 25c.**

Mixed Colors—All of the above colors mixed in one packet, **15c; 2 for 25c.**

American Beauty—New Aster, with bright carmine-rose flowers, a shade much like the

American Beauty rose. The plant is similar to the Branching in habit; the flower-stems are much longer, but of sufficient strength to support the extra-large blooms, which are full to the center, and exquisitely formed. **Packet 15c.**

ROCHESTER—The blooms are similar to the old Comet Asters, excepting that they are of immense size, possibly the largest Aster introduced. This class seems to be the only strong rival of the favorite Vicks Branching Asters.

Lavender Pink—The first of the "Rochester" class. Immediately after its introduction, the Chamber of Commerce of this city adopted it as the official flower and requested Mr. Vick to give it the name "Rochester." The color is a rich shade of lavender-pink; the petals are narrow and graceful reflexed like a chrysanthemum; frequently the blooms are from 5 to 6 inches across. **Packet 20c; 2 for 35c.**

White—Flowers fully as large as those of the preceding variety; pure snowy white. **Packet 20c; 2 for 35c.**

Violet—An unusual shade of rich violet, effective in masses or in cut-flower work. **Packet 20c; 2 for 35c.**

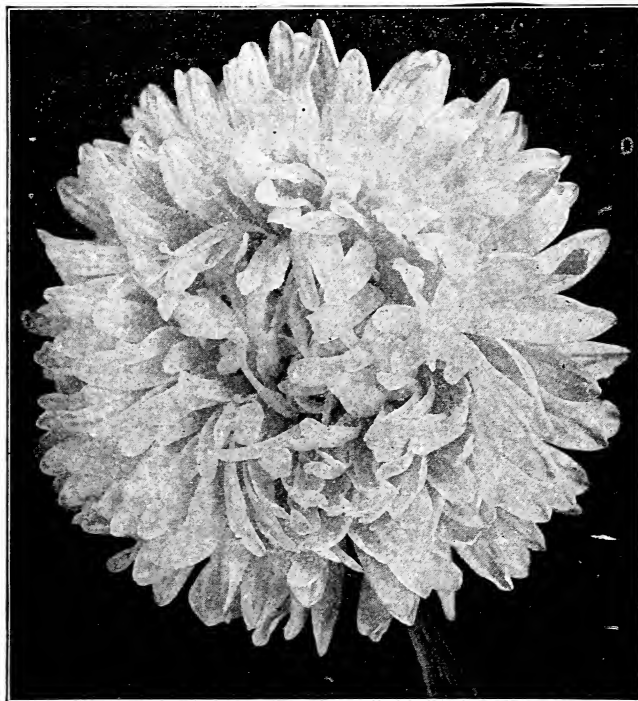

Lavender.—Light lavender. **Packet 20c; 2 for 35c.**

Mixed—The preceding five colors in mixture. **Packet 20c; 2 for 35c.**

Rose—Color a pronounced shade of light rose. **Packet 20c; 2 for 35c.**

KING—A class entirely distinct from other Asters. The petals are long and narrow and so closely rolled that they look like a quill. Violet King was the first introduced and created a distinct sensation. This was soon followed by the Rose King, and later the other colors were added. The collection of King Asters now includes Violet King, White King, Pink King, Rose King, Lavender King, Crimson King. Each color (separate), **20c; 2 for 35c; six colors in mixture, packet 20c; 2 for 35c.**

ROYAL ASTER—A late introduction of great merit, similar in all respects to the famous Late Branching, except in the blooming season, which is from 2 to 3 weeks earlier. For the home garden or for commercial purposes this Aster is unsurpassed. Seed sown in the open ground as early as possible in the spring will bloom continuously from midseason to late fall. The colors include white, shell-pink, lavender, purple, rose, and mixed. **Packet 10c.**

Late Branching Aster

LATE BRANCHING—This superb class of Asters still holds its popularity despite the introduction of many later novelties. The blooms are borne on long stems, making it extremely valuable for cutting. The plants frequently cover a space of 3 feet, and should be allowed ample room to develop to full size. We offer the full complement of six colors, including white, shell-pink, lavender, purple, crimson, and all colors mixed, at 10c per packet.

BALSAM (Lady's Slipper)

Plants grow from 18 inches to 2 feet in height; large, double flowers of brilliant colors; among the showiest annuals.

Camellia-flowered—Extra-large blooms; many colors. Packet 10c.

White Perfection—Large, white flowers, perfectly double. Packet 10c.

Scarlet—Outside petals deep scarlet, inside marked with white. Packet 10c.

Pink—Shades of pink, varying from light to dark. Packet 10c.

Goliath—Stems frequently 4 feet high, with several branches on the lower portion; flowers on both main stem and branches. Mixed colors. Packet 15c.

CANDYTUFT

Empress—White; largest. Packet 10c.

Mixed Varieties—Packet 10c.

SNAPDRAGON

Blooms nearly all summer, and succeeds best in a light soil in full sun. Will bloom the first year, if the seed is sown in the early spring. Plants should be protected during the winter.

Brilliant Red—Flowers spike like a flaming torch, almost covered with the full, double blooms. Packet 10c.

Silver Pink—The best variety for cutting; delicate pink with a silvery sheen. Packet 10c.

Queen Victoria—A superb, pure white variety, extra-large blooms. Packet 10c.

Yellow—A pronounced rich yellow of extreme beauty. Packet 10c.

Mixed Colors. Packet 10c.

CALLIOPSIS

Plants about 10 inches high, and a mass of bloom all summer. Desirable for cutting.

Mixed Colors. Packet 5c.

Alyssum

Used for borders, rock-work and baskets. Seed may be sown in early spring for summer blooming, or in August for winter blooming indoors.

Sweet—Pure white flowers, extremely fragrant. Packet 5c.

Little Gem—Seldom over 6 inches high; fragrant white flowers. Packet 5c.

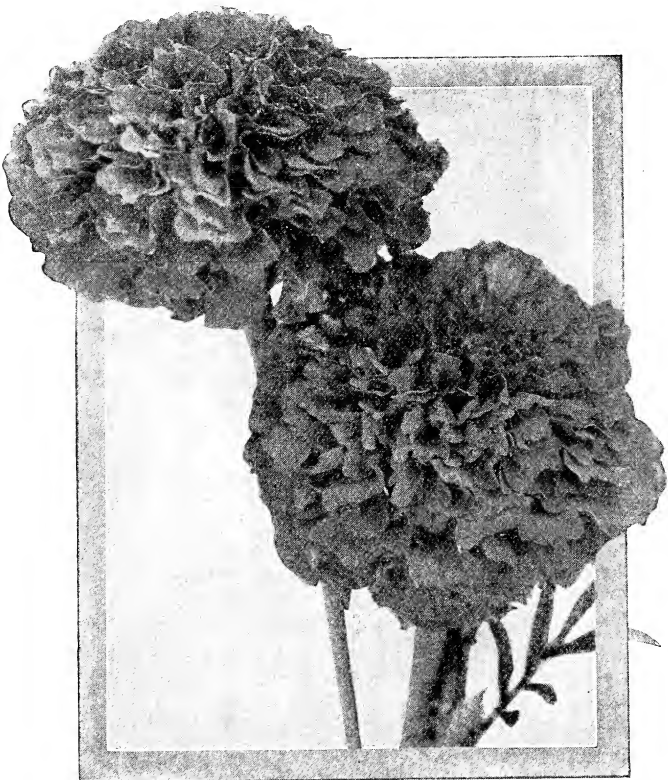

Gold Dust—Bright yellow flowers. Packet 10c.

WOODLAWN NURSERIES

CARDINAL CLIMBER

THE MOST BEAUTIFUL AND BRILLIANT ANNUAL CLIMBER EVER SENT OUT

A strong, rapid grower, attaining a height of thirty feet or more, with beautiful fernlike lacinated foliage, covered with fiery cardinal-red flowers from midsummer till frost. The flowers are about 1½ inches in diameter, and are borne in clusters of five to seven blossoms each. It delights in a warm, sunny situation and good soil. **Packet 15c.**

☞ African Marigold

MARIGOLD

The African varieties are quite tall, and produce many large, brilliantly colored blooms. Seed should be sown in rows in the open ground early in the spring or in the house in March and transplanted to the garden later. The flowers of the African varieties are large and self-colored.

Mixed Varieties. **Packet 5c; ¼ oz. 30c.**

FRENCH MARIGOLD

The French Marigolds are smaller than the African varieties; the blooms are striped and shaded with varying colors.

Double Varieties Mixed. **Packet 5c; ¼ oz. 25c.**

CARNATIONS

These are usually treated as annuals, though they may live over the winter and bloom the following season if the plants are protected during the winter. Seeds sown in early spring should produce blooming plants about the middle of July.

Marguerite—Like the winter blooming Carnations, but bloom the first year from seed. A great variety of beautiful shades and fragrant double flowers. Seeds should be sown inside to give longer season of bloom. Plants can be taken up in pots for winter blooming. **Mixed Colors. Packet 10c.**

COSMOS

This popular autumn-blooming annual bears beautiful flowers often four inches in diameter, coming at a time when other flowers are scarce. Sow seed in the open ground after all danger of frost is over, or it may be started earlier under cover and transplanted.

Mixed Colors. **Packet 10c.**

HELIOTROPE

Both the flowers and foliage are deliciously fragrant; long sprays are useful for cutting. Seed sown early will produce blooming plants for bedding. Choice mixed colors. **Packet 10c.**

MARVEL OF PERU

The flowers of the Four o'Clocks are easily grown from seed, which should be sown where the plants are desired, as they are not readily transplanted. The blooms open in the late afternoon, remaining during the whole night. Mixed colors. **Packet 5c; ½ oz. 25c.**

MIGNONETTE

A delightfully fragrant, hardy annual, blooming the entire season in the flower border; also fine for pot culture during the winter and spring.

Sweet—The familiar and popular Sweet Mignonette. **Packet 5c; ½ oz. 20c.**

FORGET-ME-NOT

Alpestris—May be grown as a perennial if slightly protected in winter.

Flowers azure blue. **Packet 10c.**

Alpestris, Indigo Blue—**Packet 10c.**

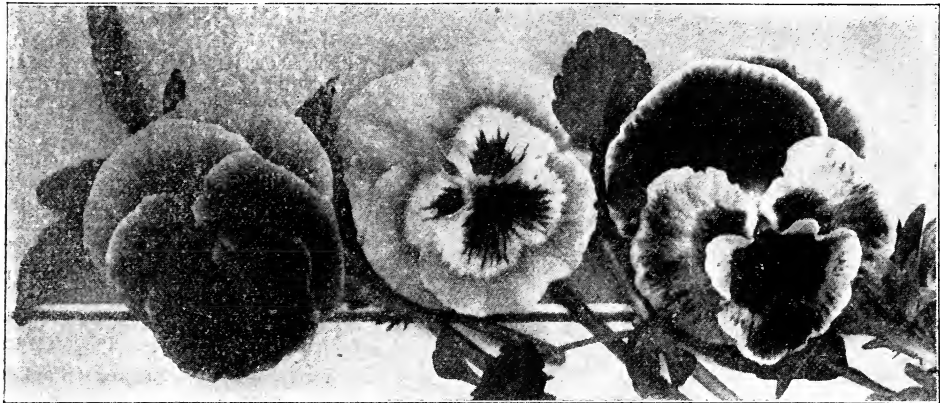

Palustris—The true Forget-me-not. Flowers deep blue. **Packet 10c.**

Perfection—Bright blue flowers; desirable for edgings. **Packet 15c.**

Mixed Varieties. **Packet 10c.**

KOCHIA (Summer Cypress)

Tricophylla—An annual about three feet in height. Splendid for temporary Summer Hedges. Throughout the summer it is a lively green, but towards autumn turns to a bright red. It is of rounded form, with very fine foliage and stems. **Packet 5c; ¼ oz. 15c.**

Mastodon Pansies

JAPANESE HOP

An annual climber which grows with great rapidity; foliage similar to the common hop, but much larger. Desirable for covering verandas or summer-houses. **Packet 10c.**

MORNING GLORY

Convolvulus major—The old-fashioned Climbing Morning-Glory. A multitude of colors and shades are combined in the individual flowers. **Packet 5c; oz. 35c.**

Imperial Japanese—Unusually beautiful in color and tints; flowers frequently 6 inches across. **Packet 10c; ½ oz. 25c.**

NASTURTIUM

The Dwarf Nasturtiums really are the garden's most brilliant flowers, including the shades of deepest red, fiery scarlet, rich gold, and brilliant yellow. Sow seed in the open ground where the plants are to bloom.

Dwarf Varieties in splendid mixture. **Packet 5c; oz. 20c; ¼ lb. 60c.**

CLIMBING NASTURTIUMS

Many named varieties in splendid mixture. **Packet 5c; oz. 20c; ¼ lb. 60c.**

NIAGELLA

Love-in-a-mist, Fennel Flower, and Devel-in-a-bush, are some of the names of this plant. Foliage finely cut; flowers various shades of blue. Mixed colors. **Packet 5c; ¼ oz. 15c.**

PETUNIA

One of our most brilliant summer bedding plants. Seed may be sown in a carefully prepared bed or in boxes and the plants transplanted.

Single-flowered Bedding Mixed—Many named varieties. **Packet 10c.**

Rosy Morn—Carmine-pink, with white throat. **Packet 10c.**

Snowball—Almost snowy white; freeblooming. **Packet 10c.**

Vick's Ruffled—Mixed colors. **Packet 20c.**

PANSIES

Mastodon Mixture—The very finest strain of Mastodon Pansies are included in this mixture. The flowers are of unusually large size and brilliantly colored, with the wonderfully frilled edges that so distinctly mark this class. **Packet 25c; ⅙ oz. 85c; ½ oz. \$1.50.**

Large-flowered Mixed—A splendid strain of Pansies only a little less desirable than our Mastodon mixture. **Packet 15c; ⅙ oz. 50c; ½ oz. 75c.**

POPPIES

Poppy seed should be sown where the plants are to bloom, as they do not transplant readily on account of the tap-root.

Peony-flowered, Double, Mixed—Some of the blooms are so full and double that they resemble a peony. Colors include white scarlet, crimson, maroon and others. Mixed colors. **Packet 5c.**

Shirley—Flowers single, in varying colors, including crimson, scarlet, light pink and rose. **Packet 10c; ¼ oz. 20c.**

Single Mixed—Finest varieties. **Packet 5c; ¼ oz. 15c.**

SUNFLOWER

These varieties must not be confused with the common sunflowers. The plants will grow from 4 to 6 feet in height and produce many really beautiful flowers.

Extra-double, Dwarf—From 3 to 4 feet high, bearing a multitude of golden yellow blooms. Suitable for massing or shrubbery. **Packet 10c.**

Mammoth Russian—Single-flowered, gigantic size. **Ounce 10c.**

MOURNING BRIDE

Mourning Bride—An old-fashioned yet favorite flower. Blooms are borne on long stems and are of many colors, including scarlet, maroon, crimson, pink, white and yellow. Fine for cutting. Seeds grow rapidly in the open ground. Double varieties, mixed. **Packet 5c.**

SWEET PEAS

Spencer Sweet Peas are displacing the smaller-flowered sorts. The flowers are frequently 2 inches or more across, and borne on long stiff stems, with three or four blooms to each stem; both the standards and wings are waved and frilled. Seed should be sown as early as possible in spring in trenches 4 to 6 inches deep; as the plants grow, gradually draw in the soil till the trench is level with the surface.

Asta Ohn—Soft pinkish lavender; extra large. **Packet 10c.**

Countess Spencer—Clear pink, deepening at the edges. **Packet 10c.**

King Edward—Pure red. **Packet 10c.**

Large-flowering Spencers, Mixed—**Packet 10c; oz. 25c; ¼ lb. 85c.**

Grandiflora Mixed—Includes only the best of the older varieties of Sweet Peas. **Packet 5c; oz. 15c; ¼ lb. 40c; ½ lb. 75c; lb. \$1.35.**

WALL FLOWER

Seed sown early in the spring will produce blooming plants in early June. Flowers are of varying colors and exceedingly fragrant.

Single Varieties, Mixed. Packet 10c.

EVERLASTING FLOWERS

(Straw Flower)

Straw Flower—One of our best Everlasting. The flowers should be picked as soon as they expand or a little before and hung up in small bunches so that the stems will dry straight. In this way they will retain both form and color for years, and make very desirable winter ornaments and bouquets for table decoration. Thin plants to one foot apart. See colored picture on inside back cover.

Fire Ball—Deep crimson. **Packet 10c.**

Golden Ball—Yellow. **Packet 10c.**

Silver Ball—Silvery white. **Packet 10c.**

Rose Queen—A beautiful shade of old rose. **Packet 10c.**

Salmon Queen—A pronounced shade of salmon-pink. **Packet 10c.**

Violet Queen—Deep violet. **Packet 10c.**
One packet each of above 6 colors, 50 cts; ¼ ounce 35 cts.

Mixed Colors **Packet 5c; ¼ oz. 25c.**

Postage on Seeds prepaid on packet, oz. and lbs. except where otherwise noted.

Sweet Pea Spencer
or Orchid Flowered

SALVIA

Salvia, or Flowering Sage is popular both as a bedding hedge or border plant. A mass of brilliant scarlet from midseason until late fall.

Clara Bedman (Bonfire)—Flowers, brilliant scarlet, borne on erect stems. **Packet 10c; ½ oz. 50c.**

Splendens—The old-time flowering Sage; plants about 3 feet high. **Packet 10c; ½ oz. 50c.**

TEN WEEKS' STOCK

Popular for cut-flowers on account of their fragrance and rich colors. Seed sown in May will bloom in late summer and fall. Height 15 inches.

Large-flowering Dwarf, Mixed—Large spikes, double flowers; seeds saved from selected plants. All colors mixed. **Packet 10c.**

VERBENA

Hybrida—One of the best garden plants, but may also be grown in porch or window-boxes. Flowers are delicately colored and sweet scented.

Mammoth Varieties, Mixed—Including all of the above colors. **Packet 10c; ½ oz. 30c.**

FLOWERING PERENNIALS

Velvet Trumpet

Velvet Trumpet should be in every flower garden. In our opinion it is one of the very best for massing and house decoration; blooms early and all summer long. The delicate markings and colors attract the attention of all who see them. Separate colors, crimson and gold, dark scarlet, rose and gold, violet and gold, white and yellow and yellow. **Packet 10c. Mixed Colors, packet 10c.**

ZINNIA

One of the old-fashioned bedding plants, yet the new varieties bear no resemblance to the old sorts, at they are much larger and more beautiful in every way. Sow the seed in early spring; when the plants are well started, transplant to about 12 to 18 inches apart.

Giant Double Mixed—A distant race of Giant Zinnia. Colors include all the shades of the Zinnias. **Mixed color packet 10c; ¼ oz. 35c.**

Curled and Crested, Mixed—An extra-fine strain of Zinnias, with petals curled and twisted in peculiar forms. Colors include all the shades of the Zinnias. **Mixed colors. Packet 10c; ¼ oz. 35c.**

Perennials usually bloom the second season from seed and are permanent thereafter. Year by year the plants grow larger and stronger; most of them are so hardy that they do not require protection during the winter. Seed may be sown outdoors in early spring or summer, or in a coldframe and later transplanted to the open ground.

COLUMBINE

Plants grow well in shady places. Flowers are borne on long, slender stems; plants from 2 to 3 feet in height.

Caerulea—Rocky Mountain Columbine. Flowers white and pale blue. **Packet 10c; ⅛ oz. 40c.**

Long-spurred Hybrids—Includes all the best and brightest colors and many new beautiful shades. **Packet 15c.**

Double Varieties, Mixed—**Packet 10c.**

BACHELOR'S BUTTON

Variouly known as Bachelor's Button, Ragged Sailor, Blue Bottle, similar titles. Seeds grow very readily; plants take care of themselves and reproduce from season to season.

Mixed Single and Double. Packet 10c.

COREOPSIS

Grandiflora—Bright golden yellow flowers; first produced in June and continuing till frost. Plants 2 feet high. **Packet 10c; ¼ oz. 50c.**

DOUBLE DAISY

Seed of the English Daisy may be sown from June to August and will produce flowering plants for the following spring.

Longfellow—Extra-large, rose pink flowers, dull double. **Packet 10c.**

Snowball—Flowers pure white, and full double. **Packet 10c.**

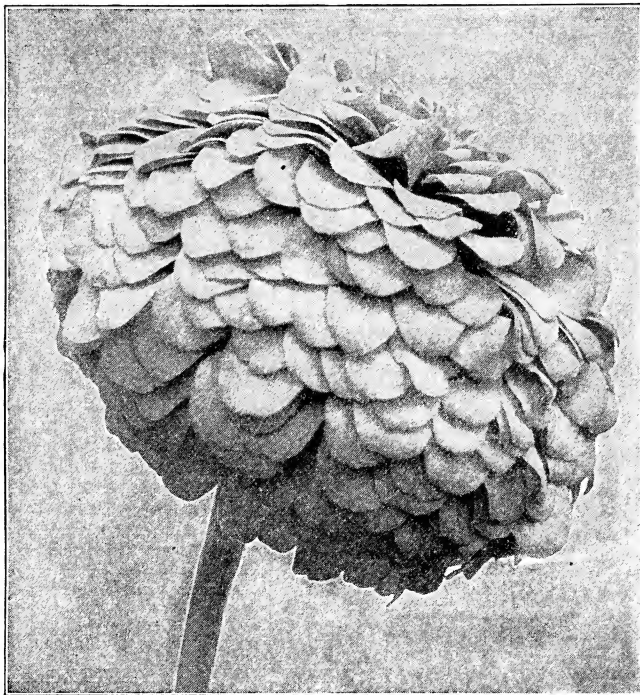

Mixed Colors. Packet 10c; ⅛ oz. 40c.

DIGITALIS

Old-time favorites, and desirable for a background in the hardy garden. Flowers are bell-shaped and from 2 to 3 inches long. Mixed varieties and colors. **Packet 10c; ¼ oz. 30c.**

GYPSOPHILA PANICULATA

Baby's Breath—White flowers in July and August. **Packet 5c.**

Giant Double Zinnia. (See Description on Page 53)

FLOWERING PERENNIALS (Continued)

HOLLYHOCK

These new Hollyhocks are a great improvement over the older sorts. Flowers full double; colors include pink, rose, scarlet, yellow, maroon, crimson and white. **Packet, each, 10c; ¼ oz. 50c.**

Mixed Varieties and Colors—Packet 10c; ¼ oz. 50c.

LYCHNIS

Chalcedonica—An old garden plant, bearing brilliant scarlet flowers. 3 to 4 feet in height. **Packet 10c; ¼ oz. 25c.**

Haageana hybrida—Bushy plants, bearing flowers an inch or more across. Colors range from white, through shades of pink, to deep scarlet. **Packet 10c.**

PERENNIAL PEAS

The hardy flowering Peas will climb from 6 to 8 feet in a season. The flowers are borne in large clusters on long stems. **Mixed colors. Packet 10c; ¼ oz. 25c.**

CORNFLOWER ASTER

Cornflower—Will bloom the first year from seed; plants grow from 18 inches to 2 feet in height, beginning to bloom in July and continuing until frost. Colors, blue and white, in mixture. **Packet 10c.**

stems. Plants about 1 foot high. **Packet 10c.**

SHASTA DAISY

Alaska—Everybody knows this plant, with its pure white flowers like the old field Daisy, but much larger. **Packet 10c. ¼ oz. 35c.**

SWEET WILLIAM

Plants grow about 1 foot high and are especially desirable for massing or for a border in the bed of perennials.

Holborn Glory—Many shades of colors are included in these extra-large flowers. **Packet 10c; ¼ oz. 25c.**

Single Varieties. Mixed colors. **Packet 10c; ¼ oz. 25c.**

Double Varieties. Mixed colors. **Packet 10c; ¼ oz. 35c.**

POPPY

Iceland—Will blossom the first year, if the seed is sown in early spring. The flowers are about the size of the annual Poppy, and are produced from June to October.

White, Yellow, Orange. In separate packets, each 10c.

Mixed Colors. Including all of the above. **Packet 10c.**

Orientele—The brilliant "Oriental Poppy," with immense, flaming flowers of orange-scarlet. These impressive color-blotches are supreme among the prevailing greens of early spring. **Packet 10c.**

PRIMROSE

Seeds of the hardy Primrose can be sown in the open ground, but are slow in germinating and must be protected and shaded.

Auricula—Mixed colors. **Packet 25c.**

Elatior—Mixed colors. **Packet 10c.**

Vulgaria—The old familiar English Primrose. **Packet 10c.**

PYRETHRUM

Large, double, daisy-like flowers, 3 to 4 inches across; colors include rose, flesh, pink, white, crimson and others.

Double Varieties. Mixed colors. **Packet 10c.**

CONEFLOWER

Purpurea—The Giant Purple Cone-flower; flowers reddish purple, on stems 2 to 3 feet long, and produce from June to frost. **Packet 10c.**

SCABIOSA

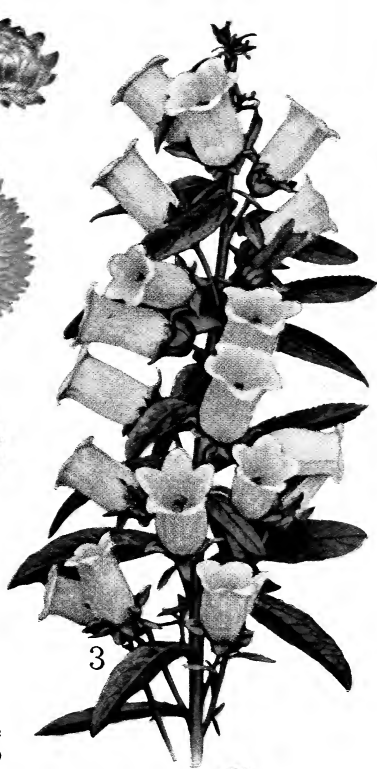

Caucasica—One of the newer lilac and borne on long stems. Plants about 1 foot high. **Packet 10c.**
